| TOTAL | 43 | 58,328 | | \$11,041,865 |

The FY19 SBA Capital Fund is intended to fund high priority projects across the State, as defined by the RIGL 16-105-3 (7). High priority projects are those intended repair and/or renovate building systems which are unsound or otherwise in a condition seriously jeopardizing the health and safety of school children, including security projects. **The SBA Capital Fund will leverage local dollars to complete \$15.2M worth of projects.** These high priority projects will address building, health, and fire safety code deficiencies, as well as security improvements to ensure that building conditions do not interfere with the delivery of a high quality education.
