Dear Governor Raimondo and the Education Funding Formula Working Group,

My name is Pamela Cabral. Thank you for all that you do for Rhode Island. I am writing to ask for your support of The Metropolitan Regional Career and Technical Center (The Met). The Met is important to my family and to the community, and I am concerned about the financial challenges they are facing. My child Catherine Cabral, is a 11th grader at The Met.

The Met is an innovative public career and technical school, which offers integrated academic and work skills programming. With high standards and strong family engagement, The Met's individualized learning approach has proven successful in unlocking students' passion for learning.

However, The Met faces many challenges and needs your support. As a state-operated career and technical school, The Met relies on sufficient funding from the state to support the unique needs of the innovative programs and its students, including my child Catherine Cabral

Here's why the Met is so important to me: It is a wonderful school that has many benefits for it's students. My daughter has benefited greatly from attending this school.

I invite you to visit The Met to see the great work being done to prepare students for post-secondary schooling and careers. We appreciate your open perspective on this matter as you review the funding formula. We are depending on your help to ensure innovate career and technical education for the students of Rhode Island.
