TASK TITLE

Eight Features of Civilizations

INTRODUCTION

Research a modern country (not the United States) surrounding the 8 features and how your civilization has changed over time.

Your research should be focused around the questions of listed below. This research will provide the basis for the final product.

- Evaluate the 8 features of civilizations and discuss how they have changed over time.
- What qualifies for each of these in your nation?
- Do our class definitions of these 8 features need to be adapted to match our modern society?

Finally, write a 4 paragraph essay, individually, on the following prompt.

Select one feature from your modern civilization (i.e., job specialization) to analyze and then make a determination as to whether this feature makes life "better" today than in the past? Don't forget that your essay must have a thesis statement, must use evidence and examples to support your reasoning, and a clear introduction and conclusion.
