*NAEP: National Assessment of Student Progress – Not all schools will be selected to participate in every test.

PISA: Program for International Student Assessment

TALIS: Teaching and Learning International Survey

HSTS: High School Transcript Study

NIES: National Indian Education Study

BEST PRACTICES FOR SELECTING YOUR SCHOOL AND DISTRICT TESTING WINDOWS

1. Determine how many staff you will need *before* selecting your testing window.
2. Use as much of the state testing window as possible. Even if your school testing window is over, if you're within the state assessment window, you can continue testing.
3. Plan to test 100% of students in each content area.
4. Start as early in the state testing window as possible. All primary testing must be completed in this testing window.
5. Primary testing may not be completed during the makeup window.
6. For PSAT and SAT:
 - Schedule your preadministration session *before the primary testing days*. This will help you identify technology issues and will familiarize staff and students with the testing platform.
 - Activities/schedules for non-tested grades may need to be approved by the superintendent so make requests *before* January 2024. This will give you time to develop and get approval for new plans.
