

Test Administrator Instructions for Setup

NECAP Science Grade 4 Inquiry Task: Toy Skateboard Roll

The materials enclosed are for **1** setup, **5** setups, or **10** setups.

Materials: 1 setup (for 1, 2, or 3 students):

1 placemat for all materials (8½" × 11")

1 toy skateboard

1 ramp

2 wooden blocks

2 rectangular stickers

6 round stickers

1 Distance Sheet (11" × 17")

Procedure for Setting Up the Investigation

1. Set out a placemat for each group of students.
2. Unfold and flatten a Distance Sheet for each group of students. It is very important that there is no crease to interfere with the movement of the toy skateboard.
3. Place the ramp in the large rectangle labeled "Ramp."
4. Place the two wooden blocks in the medium rectangle labeled "2 wooden blocks."
5. Place the toy skateboard in the thin rectangle labeled "Toy skateboard."
6. Place the stickers in the small rectangle labeled "Stickers."
7. Place the Distance Sheet on the workspace next to the placemat.
8. Instruct students not to touch materials on the placemat or the Distance Sheet until instructed to do so.
