

Rhode Island Intensive Math Intervention Project

Save the Date: Informational Meeting

When: Tuesday, October 25, 2-3 p.m.

Where: Save the Bay

**100 Save the Bay Drive, Providence, RI
02905**

Elements of the Project:

Schools and Teachers will have access to:

- 1. On-site training specific to data-based individualization, evidence-based practices in mathematics, and strategies for working with diverse learners.**
- 2. On-site coaching related to topics such as collecting assessment data with fidelity, interpreting data and making instructional changes, and implementing intensive mathematics intervention.**

**Participating
schools will receive
a mini-grant
award!**

A National Focus:

The Federal Office of Special Education Programs is holding states accountable for improving outcomes through a Results-Driven Accountability framework. Through data analysis, Rhode Island identified a critical need to improve mathematics achievement for students with disabilities in Grades 3-5. This project is aimed at preparing educators to design and deliver intensive math intervention.

**Priority will be given
to districts in urban and
urban ring areas.**
