Getting to Know Our Students and Our School

When you look at the data in the Data Snapshot, what stands out to you? Use the prompts below to help guide your inquiry.

Informed by the "Data Snapshot"

How well is the school serving students? Where do you see areas of strength?

What gaps do you see? Are there any young people being left out?

Combine these data with what you know about your community: How is the youth population changing & how are the demands and opportunities for today's teenagers changing?

What other questions do you need to ask? What other data points do you need to uncover?
