## Introduction to the NEW Digital PSAT 10/SAT Assessment

While the transition to the new digital PSAT 10/SAT is bringing a number of changes, the test will continue to measure the knowledge and skills that students are learning in high school and which matter most for college and career readiness. The PSAT 10/SAT will continue to be scored on a 1600 scale. This will allow educators and students to continue to be able to track growth across the SAT Suite of Assessments over time year after year.

#### Summary of changes:

- The Spring 2024 SAT School Day and PSAT 10 state assessments will have a longer testing window.
- Instead of over three hours for the current PSAT 10/SAT, the digital PSAT 10/SAT will be shorter (two hours and 14 minutes) and allow for more time per question.
  - The digital PSAT 10 and SAT are composed of two sections: reading and writing and math.

- Students have 64 minutes to complete the reading and writing section and 70 minutes to complete the math section for a total of 134 minutes (2 hours and 14 minutes).
- The digital SAT will have shorter reading passages with one question tied to each passage.
- Passages will reflect a wider range of topics that represent the works students read in college.
- o Calculators will be allowed on the entire math section.
- o Students and educators will get scores back in days, instead of weeks.
- As a result of the test being fully digital, the assessment management will now be done in Test Day Toolkit in lieu of TIDE.
- Students will be taking the assessment on the Bluebook application instead of Secure Browser application.

#### Changes In Preparation

As you begin to prepare for the 2024 Spring administration of the PSAT 10/SAT State Assessment, note that there are some changes to the tasks that need to completed. As a result of the test being fully digital, the assessment management will now be done in Test Day Toolkit in lieu of TIDE, and students will be taking the assessment on the Bluebook application instead of Secure Browser. The checklist below outlines the tasks that should be completed in order for you to be properly prepared for the assessment.
