I. Introduction

This manual contains information and state policies on accommodations and accessibility features for the five assessments that comprise the Rhode Island State Assessment Program (RISAP). Each assessment is slightly different in what are and are not appropriate test supports for students. IEP/504 and EL teams should read this manual carefully to ensure they select the most effective test supports. Any support provided to a student should mitigate the student's challenges as much as possible and provide the greatest amount of access to the state assessments they take. Accommodation and accessibility features should support a student's independence to show what they know on state tests. In addition to this manual, several of the state assessments have additional accommodations and accessibility manuals that explain how to administer a test using the accommodation and any technical issues that to address prior to testing. **In addition to this manual, you will need:**

- **ACCESS:** *WIDA Accommodations and Accessibility Features Manual*
- **DLM:** *DLM Accessibility and Accommodations Manual*
- **RICAS:**
 - *Guide to the Student Registration/Personal Needs Profile (SR/PNP) Process*
 - *Guidelines for Using Assistive Technology as a RICAS Test Accommodation*
- **NGSA:**
 - *Accommodations and Accessibility Features Manual*
 - *NGSA TIDE User Guide*
 - *NGSA Assistive Technology Manual*
- **SAT and PSAT 10:**
 - *Accommodations and Supports Handbook*
 - *Test Coordinator Accommodations Guide*

All documents and other test-specific resources can be found at www.ride.ri.gov/accommodations

Test Support Categories

Test supports are divided into two categories depending on whether all students can use them, if they are for a student with a disability, or if they are designed for a student in the process of learning English.

1. **Accessibility Features** may be available to any student. All the flexible test administration procedures may be used with *any* student, at the discretion of the principal (or designee).
2. **Accommodations** are available to students with disabilities and/or English learners. Teams and educators responsible for developing Individualized Education Programs (IEPs) and 504 plans must make decisions regarding accommodations, and these must be listed in the plan of each student. We encourage LEAs to list accommodations for EL students using the sample form in this document, though this is not required.
 - **Special Access Accommodations (RICAS only):** These accommodations can be only used by students with disabilities who meet certain guidelines and criteria.
 - **EL State-Allowed Accommodations (PSAT 10 and SAT only):** Use of these accommodations will result in scores that are non-reportable. This means test scores cannot be used for college admissions purposes. However, scores will be used by RIDE for accountability and assessment reporting and students will receive individual score reports.

Navigating the table of test supports

External or Non-Embedded Support: This column provides information what the support is, any criteria or requirements a student must meet before getting the support, and details on using the test support with paper-based tests.

- Information on using the external support with computer-based tests is here if it the test support is not embedded into the test platform.
- This column provides the name of the test support used in the test-specific manuals. Often the names for the same test support are different across tests.
- We are required to monitor accommodations use across tests so any information on recording the accommodation is also provided.

Test Support Name: The name of the general category of test support. This provides a common name across all state assessments.

Student Status: Tells which students are eligible to use this test support. Options are:

- Any Student* regardless of disability or EL status, students may use this test support.
- IEP/504 Only* designate test supports only for students with disabilities. Students with RTI plans or Personal Literacy Plans do not qualify for these test supports.
- EL Only* is for any current or former EL student

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. Some test supports can be provided outside the test platform.</i>	External or Non-Embedded Support <i>Use information in this column for paper-based edition of the test or if the test support must be provided outside of the test platform.</i>
Adaptive or Specialized Furniture	ACCESS, DLM, NGSA, RICAS	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	ADAPTIVE OR SPECIALIZED EQUIPMENT OR FURNITURE. Some students may require specialized equipment or furniture including (but not limited to) special seating, weighted vests, fidget tools, noise-reducing headphones, specialized lighting or acoustics, or adaptive keyboards, desks, or lighting. <i>For ACCESS: See page 3 in the WIDA Accessibility and Accommodations Manual.</i> PNP Profile, TIDE, PNP: Not Recorded
	PSAT10_SAT	IEP/504 Only	Accommodation	ADAPTIVE OR SPECIALIZED FURNITURE. This is an accommodation for PSAT 10 and SAT. See page 25 for more information.	
Answer Eliminator	NGSA	Any Student	Accessibility Feature	ANSWER ELIMINATOR. This tool allows the student to mark an "X" through each answer option they think is incorrect. If an answer option is an image, it will be grayed out. Note: Defaulted to ON for all students. TIDE: Not Recorded	ANSWER ELIMINATOR. Student uses a pencil to mark an "X" through each answer option they think is incorrect in the paper edition or print out of test items. TIDE: Not Recorded

Test: The acronym used for the state assessment.

The **Embedded Support** column provides information what the support is, details on using it with computer-based tests, and any criteria or requirements a student must meet before getting the support.

- The name of the test support used in the test-specific manuals is provided. Often, the names for the same test support are different across tests.
- Configuration information is also provided if a test support requires configuration before testing.

Not all test supports are the same across tests. Test supports are divided into *accessibility features* that all students can receive and *accommodations* that are only for specific students.

I. Accessibility Features

Accessibility features are tools and supports that are available to *all* students, regardless of their disability or EL status.

- **Accessibility features are not the same across tests.** Please read the description of the accessibility feature carefully and review any additional test manuals, if applicable.
- Most accessibility features are embedded in the computer-based test platform and have paper-based equivalents for students taking the paper-based tests. Which version of accessibility feature is provided depends on student preference and in some cases staffing.
- Most accessibility features will be available on the day of the test to *any* student who wishes to use them; however, some *must* be either designated in the test's online system or requested and approved before testing because they require additional preparation or a specific setting in the test platform.
- Principals have the flexibility to test *any* student using the accessibility features listed on the following pages, including non-disabled and non-EL students, as long as all requirements for testing conditions and staffing are met.
- It is advisable, although not required, to include accessibility features in the IEP, 504, or EL plan of any student who has one of these plans.

Table 1: Accessibility Features (available to any student, regardless of disability or EL status)

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. Some test supports can be provided outside the test platform.</i>	External or Non-Embedded Support <i>Use information in this column for paper-based edition of the test or if the test support must be provided outside of the test platform.</i>
Adaptive or Specialized Furniture	ACCESS, DLM, NGSA, RICAS	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	ADAPTIVE OR SPECIALIZED EQUIPMENT OR FURNITURE. Some students may require specialized equipment or furniture including (but not limited to) special seating, weighted vests, fidget tools, noise-reducing headphones, specialized lighting or acoustics, or adaptive keyboards, desks, or lighting. <i>For ACCESS: See page 3 in the WIDA Accessibility and Accommodations Manual.</i> DLM PNP Profile, NGSA/SAT TIDE, RICAS PNP: Not Recorded
	PSAT10_ SAT	IEP/504 Only	<i>Accommodation</i>	ADAPTIVE OR SPECIALIZED FURNITURE. <i>This is an accommodation for PSAT 10 and SAT. May be provided as an accommodation that does not require approval if used as a stand-alone accommodation. Request and approval are required if used in conjunction with other accommodations.</i>	
Answer Eliminator	NGSA	Any Student	Accessibility Feature	ANSWER ELIMINATOR. This tool allows the student to mark an "X" through each answer option they think is incorrect. If an answer option is an image, it will be grayed out. Note: Defaulted to <i>ON</i> for all students. NGSA TIDE: Not Recorded	ANSWER ELIMINATOR. Student uses a pencil to mark an "X" through each answer option they think is incorrect in the paper edition or print out of test items. NGSA TIDE: Not Recorded
	RICAS	Any Student	Accessibility Feature	ANSWER ELIMINATOR. This tool allows the student to mark an "X" through each answer option they think is incorrect. RICAS PNP: Not Recorded	ANSWER ELIMINATOR. Students use a pencil to mark an "X" through each answer option they think is incorrect in the answer booklet. RICAS PNP: Not Recorded
	PSAT10_ SAT	Any Student	Accessibility Feature	STRIKETHROUGH. This tool allows the student to mark an "X" through each answer option they think is incorrect. If an answer option is an image, it will be grayed out.	STRIKETHROUGH. Student uses a pencil to mark an "X" through each answer option they think is incorrect in the paper edition or print out of test items.
Answer Masking	ACCESS	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	ANSWER MASKING. Test administrators may use a piece of paper to cover portions of the screen to reduce visual clutter without otherwise affecting the information or number of response options. WIDA AMS: Not Recorded
	DLM	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	ANSWER MASKING. Test administrators may use a piece of paper to cover portions of the screen to

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. 					reduce visual clutter without otherwise affecting the information or number of response options. DLM PNP Profile: Not Recorded
	NGSA	Any Student	Accessibility Feature	ANSWER MASKING. This tool blocks off content, test items, or answer options so the student can focus attention on a specific part of a test item. NGSA TIDE: Answer Masking	ANSWER MASKING. For students taking the paper-edition, they can use blank page to block off test content, test items, or answer options to focus their attention on a specific part of a test item. NGSA TIDE: Not Recorded
	PSAT10_SAT	IEP/504	Accommodation	ANSWER MASKING. <i>This is an accommodation for PSAT 10 and SAT.</i>	
	RICAS	Any Student	Accessibility Feature	ANSWER MASKING. This tool blocks off content, test items, or answer options so the student can focus on a specific part of a test item. RICAS PNP: Column T	ANSWER MASKING. Students can use blank page to block off test content, test items, or answer options to focus on a specific part of the test item. RICAS PNP: Not Recorded
AT/AAC Devices	ACCESS	IEP/504/EL	Accessibility Feature	<p>AAC DEVICES. An Assistive/Augmentative Communication (AAC) device is considered the voice of a student who is unable to produce functional speech. Use of an AAC during testing should be consistent with the student’s day-to-day instruction and communication methods and is not considered an accommodation. <i>See the WIDA Accommodations and Accessibility Features Manual, page 24 for instructions on how to administer the ACCESS tests to students using AAC devices.</i></p> <hr/> <p>ALTERNATIVE MICROPHONE. Students may feel uncomfortable speaking into the microphone attached to the headset. Students may use an alternate microphone (not attached to a headset), such as a microphone built into the computer or one that attaches to the device using a USB port. Bluetooth and other alternative microphone set-ups may not be compatible. Check for compatibility prior to the day of testing using the online Speaking practice test. <i>See page 4 in the WIDA Accessibility and Accommodations Manual.</i></p>	
	DLM	IEP/504	Accommodation	ASSISTIVE TECHNOLOGY. <i>This is an accommodation for DLM.</i>	
	NGSA	IEP/504	Accommodation	ASSISTIVE TECHNOLOGY. <i>This is an accommodation for NGSA.</i>	
	RICAS	IEP/504	Accommodation	ASSISTIVE TECHNOLOGY. <i>This is an accommodation for RICAS.</i>	
	PSAT10_SAT	IEP/504	Accommodation	ASSISTIVE TECHNOLOGY. <i>This is an accommodation for PSAT 10 and SAT.</i>	

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. Some test supports can be provided outside the test platform.</i>	External or Non-Embedded Support <i>Use information in this column for paper-based edition of the test or if the test support must be provided outside of the test platform.</i>
Auditory Supports	ACCESS	Any Student	Accessibility Feature	<p>AUDIO AIDS: A tool that the student can use to amplify or diminish sound. Audio aids include amplification devices, noise buffers, and white noise machines.</p> <ul style="list-style-type: none"> Noise buffers must be compatible with the requirements of the test (i.e., allow the student to hear listening items). Smart phones cannot be used. Music or other recordings may not be played on headphones worn during testing. See the <i>WIDA Accommodations and Accessibility Features Manual, page 6</i> for more information. <p>COMPUTER-BASED TEST. Noise canceling headphones or earbuds may be connected to the computer. Be aware that some headphones may not be compatible with hearing aids or cochlear implants. In these situations, the student may participate in online testing by playing the sound through the computer's external speakers. Students using speakers must be tested in a separate setting.</p>	<p>PAPER-BASED TEST. Noise canceling headphones, earplugs, earphones, or other noise buffers not connected to an audio device may be used during paper-based testing for Reading, Writing, and Speaking. For the Listening test, students may need to use the noise buffers connected directly to the device used to play the Listening and Speaking CD.</p>
	NGSA, RICAS	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	<p>AMPLIFICATION. Volume control, amplification device, FM system, noise buffer, noise-cancelling earmuffs/headphones, white noise machine.</p> <p>NOTE: Smart phones cannot be used. Music or other recordings may not be played on headphones during testing.</p> <p>NGSA TIDE: Amplification RICAS PNP: Not Recorded</p>
	DLM	Any Student	Accessibility Feature	<p>AMPLIFICATION. The volume of the testing device may be increased using computer controls. DLM PNP Profile: Not Recorded</p>	<p>AUDITORY AMPLIFICATION/FM SYSTEM. Student uses an auditory amplification device or special sound system to hear the test administrator. DLM PNP Profile: Not Recorded</p>
	PSAT10_SAT	IEP/504	<i>Accommodation</i>	AUDITORY SUPPORTS. <i>This is an accommodation for PSAT 10 and SAT.</i>	
Assistance from a test administrator regarding the use of the computer-based testing platform.	ACCESS, DLM, RICAS, NGSA, SAT, PSAT 10	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	<p>ASSISTANCE FROM A TEST ADMINISTRATOR REGARDING THE USE OF THE COMPUTER-BASED TESTING PLATFORM. The supports below must be provided to any student who requires them during the testing session, including students with disabilities and EL students:</p> <ul style="list-style-type: none"> This <i>only</i> refers to helping a student navigate these test platforms:

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. Some test supports can be provided outside the test platform.</i>	External or Non-Embedded Support <i>Use information in this column for paper-based edition of the test or if the test support must be provided outside of the test platform.</i>
					<ul style="list-style-type: none"> ○ RICAS: TestNav ○ PSAT 10/SAT: Bluebook ○ NGSA: Test Delivery System (TDS) ○ DLM: Kite Student Portal ○ ACCESS: WIDA AMS <ul style="list-style-type: none"> ● Test administrators are not to help students answer a test question. ● This also does not remove the responsibility of schools to teach students how to navigate the online test systems prior to testing. Students should become familiar with the basic functionality of the testing platforms by viewing student tutorials and taking online practice tests.
Breaks	ACCESS	EL	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	<p>SUPERVISED BREAKS. Student may take breaks as needed or breaks can be planned based on student's specific needs (e.g., fatigues easily, overly anxious).</p> <p>SHORT SEGMENTS. If the student requires breaks beyond the 30 minutes allotted for the test, then a paper version may be necessary. Each domain must be completed on the same day.</p> <p><i>See the WIDA Accommodations and Accessibility Features Manual, page 3 for more information.</i></p>
	DLM	Any Student	Accessibility Feature	BREAKS. <i>The DLM alternate assessments are highly individualized for each student depending on their abilities and challenges. This includes scheduling testing, including breaks, to maximize student engagement and participation.</i>	
	NGSA	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	<p>BREAKS. Student requires extra breaks, extended breaks, or breaks as needed.</p> <p>NGSA TIDE: Not Recorded</p>
	RICAS	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	<p>The following options are available for breaks. Breaks can be scheduled in a way that promotes the student's participation in the test.</p> <ul style="list-style-type: none"> ● EXTRA BREAKS ● EXTENDED BREAKS ● BREAKS AS NEEDED <p>RICAS PNP: Not Recorded</p>
	PSAT10_ SAT	IEP/504	Accommodation	BREAKS. <i>This is an accommodation for PSAT 10 and SAT.</i>	

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. Some test supports can be provided outside the test platform.</i>	External or Non-Embedded Support <i>Use information in this column for paper-based edition of the test or if the test support must be provided outside of the test platform.</i>
Calculators or Mathematics Tools	NGSA, PSAT 10, SAT	Any Student	Accessibility Feature	DESMOS CALCULATOR. A Desmos calculator is available in the Test Delivery System for any item requiring a calculator. NGSA TIDE: Not Recorded	CALCULATOR. Schools can provide hand-held scientific calculators to students. Four-function and graphing calculators are acceptable. NGSA TIDE: Not Recorded
	NGSA				MATHEMATICS TOOLS. Student uses arithmetic tables for addition, subtraction, multiplication, and division, including an abacus or other manipulatives. NOTE: Formulas or formula sheets may not be provided. NGSA TIDE: Not Recorded
	DLM, RICAS	IEP/504	Accommodation	CALCULATOR OR MATHEMATICS TOOLS. <i>This is an accommodation for DLM and RICAS Mathematics.</i>	
Color Contrast	ACCESS	Any Student	Accessibility Feature	COLOR Preferences. A student can change the color of the text and background. <i>See the WIDA Accommodations and Accessibility Features Manual, page 6 for more information.</i>	COLOR OVERLAY. The student can use a color overlay or acetate shield of their choice to lay over the text booklet page.
	DLM	IEP/504	Accommodation	COLOR CONTRAST. <i>This is an accommodation for DLM.</i>	
	NGSA	Any Student	Accessibility Feature	COLOR CONTRAST. The following text and background combinations are available in TIDE: <ul style="list-style-type: none"> • black text on white background (default) • black text on rose background • gray text on light gray background • yellow text on blue background • reverse contrast (white text on black background) NGSA TIDE: Color Contrast	COLOR OVERLAY. Students can use a color overlay of their choice. NGSA TIDE: Not Recorded
	PSAT10_SAT	Any Student	Accessibility Feature	COLOR CONTRAST. Testing devices must have the Floating Accessibility Feature enabled for certain tools to work properly during testing. Color combinations are device dependent	
	RICAS	Any Student	Accessibility Feature	COLOR CONTRAST. Selects an alternative color combination for the text (font color) and background. If selected, students may change the alternative color combination during testing. These combinations are available: <ul style="list-style-type: none"> • black text on white background (default) • 01 = black text on cream background • 02 = black text on light blue background 	COLOR OVERLAY. The student can use a color overlay or acetate shield of their choice if using a paper test booklet. An acetate shield can be taped over the computer screen if the preferred color contrast option is not available. PNP: Not Recorded

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. Some test supports can be provided outside the test platform.</i>	External or Non-Embedded Support <i>Use information in this column for paper-based edition of the test or if the test support must be provided outside of the test platform.</i>
				<ul style="list-style-type: none"> • 03 = black text on light magenta background • 04 = white text on black background • 05 = yellow text on blue background • 06 = dark gray text on pale green background PNP Column T Alternative Background and Font Color	
Emergency Accommodation	ACCESS, DLM, NGSA, RICAS	Any Student		EMERGENCY ACCOMMODATION. An emergency accommodation is appropriate in cases where a student needs a new accommodation immediately prior to the assessment due to unforeseen circumstances. See <i>Emergency Accommodations for more information.</i>	
Expandable Passages	NGSA, SAT_PSA T10	Any Student	Accessibility Feature	EXPANDABLE PASSAGES. Each passage or stimulus can be expanded so that one or the other occupies a larger portion of the screen. Default is <i>ON</i> for all students. NGSA and PSAT10_SAT: Not Recorded	<i>Not available for paper testing or as an external support.</i>
Extended Time	ACCESS	IEP/504	Accessibility Feature	EXTENDED TESTING TIME. Testing times are to assist with planning. Allow students to continue testing as long as they are working productively, up to the end of the school day. See page 35 for information on the Extended Speaking Test Response Time and Testing Over Multiple Days accommodations.	
	DLM	IEP/504/EL	Accessibility Feature	EXTENDED TIME. Testing times are to assist with planning. Allow students to continue testing as long as they are working productively.	
	NGSA RICAS	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	EXTENDED TIME. Testing times are to assist with planning. Allow students to continue testing as long as they are working productively. NGSA TIDE and RICAS PNP: Not Recorded
	SAT_PSA T10	IEP/504/EL	Accommodation	EXTENDED TIME. <i>Extended time is an accommodation for PSAT 10 and SAT. See page 36 for information on options for students with disabilities and EL students.</i>	
Familiar Test Administrator	ACCESS DLM NGSA RICAS	Any Student	Accessibility Feature	<i>May be provided as a non-embedded support.</i>	FAMILIAR TEST ADMINISTRATOR. Someone familiar to the student who is not the classroom teacher, may administer the test. Anyone involved in test administration must meet all criteria to become a test administrator, sign all necessary confidentiality and security documents, and participate in all required training. ACCESS: Administrative Consideration DLM PNP Profile: Not Recorded NGSA TIDE: Not Recorded RICAS PNP: Not Recorded

Test Support Name	Test	Student Status	Support Group	Embedded Support <i>Use information in this column for the computer-based edition of the test. Some test supports can be provided outside the test platform.</i>	External or Non-Embedded Support <i>Use information in this column for paper-based edition of the test or if the test support must be provided outside of the test platform.</i>
	PSAT 10, SAT	IEP/504	Accommodation	FAMILIAR TEST ADMINISTRATOR. <i>May be provided as an accommodation that does not require approval if used as a stand-alone accommodation. Request and approval are required if used in conjunction with other accommodations.</i>	TDTK: Not recorded SSD Online: requested as an accommodation if used in conjunction with other accommodations.
Highlighter	ACCESS	Any Student	Accessibility Feature	HIGHLIGHTERS. The embedded highlighter tool is used for marking desired text with a color. <i>See the WIDA Accommodations and Accessibility Features Manual, page 6 for more information.</i>	HIGHLIGHTERS, COLORED PENCILS, OR CRAYONS. Students use their preferred writing tool(s) to mark specific text in the test booklet. Highlighters, highlighter tape, page flags, and reading guides are all acceptable.
	DLM	IEP/504	Accommodation	HIGHLIGHTER. This is an accommodation for DLM.	
	NGSA, PSAT10_SAT, RICAS	Any Student	Accessibility Feature	HIGHLIGHTER. The embedded highlighter tool is used for marking desired text with a color. Highlighted text remains available through the test segment. Defaulted to <i>ON</i> for all students. NGSA & TDTK: Not Recorded RICAS PNP: Not Recorded	HIGHLIGHTER. Students use their preferred writing tool(s) to mark specific text in the test booklet. Highlighters, highlighter tape, page flags, and reading guides are all acceptable. NGSA & CB TDTK: Not Recorded RICAS PNP: Not Recorded
Line Reader	ACCESS	Any Student	Accessibility Feature	LINE GUIDE or TRACKING TOOL. A line guide tool is built into the test platform. <i>See the WIDA Accommodations and Accessibility Features Manual, page 7 for more information.</i>	LINE GUIDE or TRACKING TOOL. A line guide is a tool the student uses to cover up the part of the text they aren't reading so it is not a distraction. A tracking tool is used to help a student guide their eyes while reading text. The student can use the same tracking tool or line guide they use during instruction (e.g., note card, bookmark, cut-out sentence highlighting strip).
	NGSA, PSAT10_SAT, RICAS	Any Student	Accessibility Feature	LINE READER. The embedded line reader tool masks the text so only part of the text can be viewed at one time. Can be raised or lowered for each line of text on the screen. NOTE: Defaulted to <i>ON</i> for all students. NGSA & CB TDTK: Not Recorded RICAS PNP: Not Recorded	LINE READER. If a student uses a paper edition of the test or a paper copy of a passage or test item, two sheets of paper, blank card, or cut-out may be used as a line reader. NGSA & PSAT10_SAT TDTK: Not Recorded RICAS PNP: Not Recorded
	DLM			LINE READER.

III. Participation Requirements for State Assessments

All students, including students with disabilities and English learners (ELs), are expected to participate in all state assessments for their current grade¹. Students with significant cognitive disabilities who meet all three eligibility criteria will take the Dynamic Learning Maps (DLM) alternate assessments in English language arts, mathematics, and science (if applicable). In addition, ELs with significant cognitive disabilities who are unable to participate in the ACCESS for ELLs, even with accommodations, must take the Alternate ACCESS for ELLs. The information in this manual is intended to guide decision-making by Individualized Education Program (IEP) teams and 504 plan coordinators as to *how*, not *whether* students with disabilities will participate in the Rhode Island State Assessment Program. Appendix A of this manual contains a table of required tests by grade level.

Participation Requirements for Students with Disabilities

Please note the following about student participation in state assessments:

- State and federal education laws assume that *all* students with disabilities educated with Rhode Island public funds are expected to participate in annual statewide assessments, including students enrolled in public schools, charter schools, educational collaboratives, and outplacement schools both within and outside of Rhode Island, as well as students incarcerated at the RI Training School.
- Students with disabilities are expected to participate in the grade-level¹ tests that correspond with the grade reported to RIDE's Enrollment Census. If you have questions about the grade level for a student in one of the online test platforms, contact your district test coordinator or special education director.
- Assessment and accommodations decisions for students with disabilities should be revisited each year. All accommodations must be listed in the IEP or 504 Plan.
- Although including accommodations decisions as test supports in EL plans is not required, we encourage this practice in order to ensure that students receive the test supports they need.
- The principal is responsible for ensuring that each student is assessed using the test format and accommodations listed in the student's IEP, 504 plan, or EL plan.

Participation Requirements for Students Who Are English Learners (ELs)

EL students must participate in all statewide tests scheduled for their grades, regardless of the language program and services they are receiving or the amount of time they have been in the United States.

The one exception applies to first-year EL students who enrolled in U.S. schools **after April 1, 2023** for whom ELA testing is *not required*. **First-year EL students *must* participate in mathematics and science tests, as applicable.** Results will be reported for diagnostic purposes only; students' results will not be included in school and district accountability reporting.

¹ *Current Grade Level* is the grade level recorded in the Enrollment Census by the LEA. RIDE will register the student for all required tests at the grade level recorded in the Enrollment Census. Testing the student at any grade level other than what is in the Enrollment Census may result in test scores being invalidated. Additionally,

- *If a student skips a grade level*, the student **does not** make up tests for the skipped grade level.
- *If a student retained in the same grade level*, the student takes the tests for their current grade level **again**, even if the student took the test the previous year.

EL Participation Requirements for State Assessments

	ELA Test (PSAT10, SAT, RICAS, or DLM)	Mathematics Test (PSAT10, SAT, RICAS, or DLM)	Science Test (NGSA or DLM)
First-Year EL Students	<i>Not Required</i>	Required	Required
All Other Students	Required	Required	Required

For questions and information regarding the **identification screening, placement, and reclassification of EL students**, contact Flavia Molea-Baker, RIDE Office of Student, Community, and Academic Supports (OSCAS) at 401-222-8985 or flavia.moleabaker@ride.ri.gov or at: www.ride.ri.gov/ELs.

Participation Requirements for English Learners (ELs) with Disabilities

EL students with disabilities are entitled to receive test accommodations and to participate in the Rhode Island alternate assessments, the Dynamic Learning Maps, as determined by their IEP team.

If a Student Refuses an Accommodation

If a student refuses to use an accommodation listed in their plan, follow these guidelines:

- The accommodation must remain available to the student during testing.
- The school must document in writing that the student refused the accommodation and keep the documentation on file at the school.
- Schools should maintain a log of accommodation refusals.
 - If students or parents are refusing accommodations on the PSAT 10 or SAT, the schools must complete the waiver in the College Board State Data Management System no later than three days before test day.
 - If a student or parent refuses accommodations two or less days prior to testing, the waiver must be completed, and the student will test after the new test is provisioned in Bluebook (*provisioning takes 48 hours*).
 - Students or parents refusing accommodations on RICAS, NGSA or DLM must complete the Accommodation Refusal Form. This form can be found in Appendix C of this manual.
- Students **may not** be asked to waive their right to an accommodation or to sign an agreement waiving their right to receive an accommodation.

Unique Accommodations Requests

If a student with a disability or an English learner requires an accommodation not listed in this manual, the school may request approval for use of the unique accommodation, provided the accommodation does **not**:

- fundamentally change the test or the construct being measured by the test.
- violate test security requirements.

Requesting Unique Accommodation Approval: Complete the Unique Accommodation in Appendix D or download from www.ride.ri.gov/accommodations and fax to 401-222-3605 at least two weeks prior to testing. If approved, amend the accommodation section in the IEP or 504 plan.

Participation Criteria for Alternate Assessments

Guidance on how to make eligibility decisions for the alternate assessments (DLM) can be found in *Guidance for IEP Teams* and is posted at www.ride.ri.gov/dlm. Be sure that all IEP team members read and review this document before making any final determination on whether or not a student should participate the DLM Alternate Assessments.

IV. Accommodations for Students with Disabilities

The District's Role in Monitoring the Selection of Accommodations

The information in this section is intended to guide decision-making regarding the selection, use, and evaluation of accommodations for testing. **IEP teams and 504 plan coordinators should identify and select only those accommodations for each assessment that are needed by the student.**

The test coordinator and the principal are responsible for ensuring that each student is provided with the test accommodations listed in his or her IEP or 504 plan. The student's plan must be revised as needed, either during routinely scheduled meetings prior to testing or through the amendment process to ensure that only accommodations the student finds helpful and will use are included. It is also advisable (though not required) to list any *accessibility features* in the plans to ensure these will also be provided.

Reliance on test accommodations should never replace appropriate and rigorous instruction based on grade-level standards in the subject being tested.

Accommodations for Students with Disabilities

Purpose of Test Accommodations

A test accommodation is a change in the way a test is given or the way in which a student responds to test questions. Test accommodations are intended to:

- offset the effects of the student's disability and remove barriers to participating in the assessment;
- provide the necessary conditions for a student to demonstrate knowledge and skills effectively on the assessments;
- provide the opportunity to report the test results of students who require accommodations;
- provide comparable test results to those of students who did not receive accommodations; and
- provide results that do not affect the validity or reliability of the test scores.

Accommodations may **not**:

- alter, explain, simplify, paraphrase, or eliminate any test question, reading passage, writing prompt, or multiple-choice answer option;
- provide verbal or nonverbal clues or suggestions that hint at *any* answer option;
- contradict test administration requirements or result in a violation of test security; e.g.,
 - modify, reorder, or reformat test questions in any way (see translation accommodations for information on when, and for which tests, translations are acceptable);
 - require paper-based tests be photocopied, photographed, scanned, altered, or duplicated in any way;
 - require screen shots of computer-based tests be taken;
 - require the use of English-language dictionaries for their administration.

Eligibility for Accommodations

ELIGIBLE: *students with disabilities served by an IEP or 504 plan*

The right for a student with a disability to receive accommodations on state assessments is protected by federal and state laws. Their plan **must** specify which accommodation(s) the student will receive.

NOT ELIGIBLE: *students without documented disabilities and students who are not served by an IEP or 504 plan.*

A student who does not have a documented disability or who is not served by either an IEP or 504 plan is not eligible to receive accommodations on state assessments, regardless of whether the student currently receives instructional supports or accommodations on other types of assessments. Students who have intervention plans (MTSS plans) or Personal Literacy Plans **are not eligible** to receive accommodations on state assessments; however, all students may use accessibility features.

If an Incorrect Accommodation Was Provided During Testing

In the event a student was provided with the wrong accommodation or an accommodation that was not listed in their plan, the school should immediately contact RIDE for guidance on how to proceed. Families should be contacted to inform them of the irregularity.

- **For RICAS:** If a student takes a test section twice due to a school or family decision to have the student retest with the correct accommodation, all or part of the student's score may be invalidated for accountability purposes. Families will still receive score reports.

Updating IEPs and 504 Plans

IEPs and 504 plans should be updated for all students with disabilities for statewide test administrations to reflect the updated policies and accommodations available. Including the appropriate designated accessibility features in the plans of students is also encouraged, but not required.

Amending IEPs or 504 Plans

If a student requires an accommodation that is not in their IEP or 504 Plan and there is not enough time before testing to convene a full IEP or 504 Plan team meeting, an amendment process can be followed to ensure that the accommodations section of the IEP or 504 Plan is updated prior to testing. The following is from *The IEP Process: Frequently Asked Questions* (p. 72, [The IEP Process \(ri.gov\)](#)).

These changes may be made at an IEP Team meeting with the entire IEP Team present. However, if the parent(s) of the child with a disability and the school district agree, the changes can be made without holding a meeting. In this case a written document would be developed amending the child's current IEP. Individuals are encouraged to refer to his/her district procedures and forms for amending the IEP with or without a meeting. If changes are made to the IEP without a meeting, the district must ensure that the child's IEP Team is informed of the changes.

Similarly, 504 plans must reflect only those accommodations required by the student. Consent by the parent/guardian is *not* required for a new or modified 504 plan, although the parent/guardian must be notified.

Process for Selecting and Evaluating Accommodations for a Students with a Disability

Accommodations are intended to offset the effects of a disability to allow the student to participate effectively in testing. When selecting accommodations, educators should consider the following:

- **Determine the learning challenges the student is experiencing and the effect the student's disability has on their learning and their ability to access the test independently.** Consider the student's classroom performance, not just the nature or type of disability. In other words, accommodations must mitigate the effect(s) of the disability and increase the student's ability to take the test. For example, providing a read aloud for a student with dyslexia may increase the student's ability to take the test. A

student with fine motor problems may benefit from a speech-to-text program or a scribe.

- **Brainstorm the use of various accommodations, accessibility features, and test administration considerations** with IEP team members and other adults familiar with the student.
 - What supports were used successfully with students who have similar learning profiles?
- **Try out the accommodation(s)** in different assessment settings and adjust as needed.
- **Evaluate whether the accommodation addresses the student's need.** If not, revise the plan to provide accommodation(s) and supports accordingly.

NOTE: Do not include accommodations “just in case” or “just because” it seems like a good idea, or the teacher/IEP team is covering their bases. Accommodations should be thought out and deliberately selected to increase a student's independence and access to the test, not to mimic instructional strategies used in the classroom. For example: if calculators are used during instruction, that doesn't mean the student should have a calculator during the non-calculator section of the test if their disability doesn't affect their ability to perform calculations.

- **If the accommodation addresses the challenge,** determine whether the accommodation is allowed on the specific test(s);
 - develop or amend the IEP or 504 plan accordingly to include the accommodation(s) and the test(s) on which they will be used.

Accommodations for Students with Disabilities

Please note the following:

- See [Navigating the Table of Test Supports](#) for information on how to read Table 5.
- The following pages list the accommodations available to students with disabilities either through the test platform (embedded) or by a test administrator (external).
- **Special Access** accommodations are for the small number of students who meet the criteria outlined in the charts on the following pages.
- Accommodations that must be entered in the online test platform before testing have the name of the accommodation in the online test platform, and any other instructions, listed below.
- The accommodations are listed in alphabetical order.

RICAS Special Access Accommodations for Students with Disabilities

Special access accommodations are intended for use by a *very small number of students* who would not otherwise be able to access the test because of a disability that severely limits or prevents them from performing the skill in question. Teams must exercise caution when considering whether a student requires a special access accommodation, since these accommodations may alter part of what the test is designed to measure. Teams must carefully review the criteria described for each special access accommodation listed in Table 5 that follows. Test results for a student who took the test using special access accommodation(s) must be interpreted with caution by parents and schools.

NOTE: RIDE will review each district's rate of use of special access accommodations. To ensure that IEP teams and 504 plan coordinators carefully review and apply appropriate criteria for use of special access accommodations, districts must do the following:

- train members of IEP teams and 504 plan coordinators on the use of accommodations, including “special access” accommodations;
- review all guidelines with staff for special access accommodations listed in Table 5; and
- Revise the IEPs and 504 plans of students with disabilities as needed.

Although test accommodations should generally be consistent with accommodations used for instruction, the use of a “special access” accommodations during instruction *does not* automatically qualify a student to receive the same accommodation on a test **unless the student meets the criteria for that accommodation.**

IEP and 504 teams are encouraged to make consistent, defensible, and appropriate decisions for each student based on locally administered diagnostic assessments and to amend the IEPs and 504 plans of students who do not meet the criteria for the accommodation being considered.

Accessibility Features and Accommodations for EL Students

In addition to the accessibility features listed elsewhere in this manual, several accommodations are also available to ELs. Table 4 describes the relative suitability of each accommodation for students at beginning, intermediate, and advanced levels of English proficiency.

Table 4. Suitability of EL Accommodations based on English language proficiency of the student.

- **Highly recommended** for use by English learners at this ELP level
- ⊙ **Recommended** for use by English learners at this ELP level
- **May not be appropriate** for students at this ELP level

Accommodation	Most Likely to Benefit English Learners at the Following English Proficiency Levels		
	Beginning (ELP levels 1-2)	Intermediate (ELP levels 3-4)	Advanced (ELP levels 5-6)
Approved bilingual word-to-word dictionary and glossary (English/Native Language)	○	●	●
Text-to-speech or Human read-aloud for the mathematics tests in English	●	⊙	○
Human scribe or speech-to-text for Mathematics	●	⊙	○
Read aloud/repeat/clarify general administration directions in English (by test administrator)	●	⊙	○
Read aloud/repeat/clarify general administration directions in student's native language (by test administrator)	●	⊙	○

Selecting Accessibility Features and Accommodations for EL Students

Decisions about universal and designated features and accommodations for EL students should be made by an informal group of educators familiar with the student; the group will identify the appropriate features and accommodations for each EL student. The decisions of the informal decision-making team should be documented using either the sample form *Documentation of Accommodations for an EL Student* provided in Appendix B, or using a similar, locally designed form.

Individuals involved in the decision-making process may include any of the following:

- the student,
- the English to Speakers of Other Languages (ESOL) or Bilingual/Dual Language (BDL) educator,
- school administrator (principal/assistant principal),
- general educator (content area teacher).

- special educator (if appropriate)
- parent or guardian

Decision-making teams are encouraged to determine and assign features and accommodations to EL students as early as possible in the school year to ensure that the student is familiar with their use. The student should not be introduced to an accessibility feature or accommodation on the day of the assessment. Appropriate features and accommodations are intended to allow EL students to demonstrate their knowledge and skills more effectively.

Guidelines for Selecting Accessibility Features and Accommodations for EL Students

Because a student’s level of English language proficiency is transitional, and the student’s linguistic needs will differ from one year to the next, accessibility features and accommodations should be examined and revised annually as the student progresses toward proficiency in English.

Decision-Making Procedures

The following procedures can be used to make appropriate decisions regarding selection of accessibility features and accommodations for EL students:

1. While examining the range of supports allowed on tests that may help the EL student access the curriculum and take assessments more effectively, the student’s classroom teacher should consider:
 - *Has a particular feature and/or accommodation been used successfully in the past to assist students in similar situations and at similar English proficiency levels?*
2. While trying out the selected supports during routine instruction to determine whether they meet the student’s needs, the teacher should consider the following questions:
 - *Does the feature and/or accommodation help the student overcome the barrier posed by his or her developing English language proficiency?*
 - *Is the student comfortable using the feature or accommodation?*
3. The teacher should observe the student in the classroom (or if possible, across different classrooms and school settings) using the accessibility feature or accommodation and inform members of the decision-making team which features or accommodations seem most appropriate and effective.

Based on the accessibility feature(s) and/or accommodation(s) listed in this manual and used successfully in the classroom, the teacher can select the appropriate test supports for the student to use on the tests.

4. The teacher should document the final decisions either on the sample form provided in Appendix B, or use a similar locally designed form, and keep this form in the student’s file.

Involving EL Students in Selecting and Using Accommodations

The more that an EL student is involved in the accommodation selection process, the more likely the accommodations will be accepted and used by the student. Also, as students’ English proficiency increases, and especially as students reach adolescence and the desire to be more independent increases, students will help to determine when the support is no longer useful. Students are likely to increase their self-advocacy abilities over time to ensure that the selected supports are provided during testing. Teachers and other adults can play a role in assisting students to advocate on their own behalf regarding their need for and use of accessibility features and accommodations.

It is important to introduce the use of selected accessibility features and accommodations as early as possible in the school year before the tests are administered in order to familiarize students with their use and determine their effectiveness. **Do not provide accommodations for the first time during an assessment.**

Evaluating the Effectiveness of Features and Accommodations

Accessibility features and accommodations should be evaluated over time for their effectiveness. Observations conducted during test administration, interviews with test administrators, and talking with students after testing is likely to yield data that can be useful in guiding the evaluation of the use of features and accommodations at the school, district, and student levels.

The following questions can guide decision-making regarding the effectiveness of the selected accessibility features and accommodations.

- Was the student familiar with the feature or accommodation prior to testing?
- Does the student use the feature or accommodation routinely?
- Was the student comfortable using the feature or accommodation?
- Does the student's performance on the assessment improve when the feature or accommodation is used?

Table 5: Accommodations for Students with Disabilities and English Learners

Test Support Name	Test	Student Status	Support Group	Embedded Support: <i>Available accommodations embedded in the online testing platform (TestNav, TIDE, TDTK, WIDA AMS, and Kite Student Portal) for the computer-based editions of tests.</i>	External or Non-Embedded Support: <i>Available accommodations for the paper-based edition of the test or if test support will be provided outside of the test platform.</i>
Able to move, stand, pace	PSAT10_SAT	IEP/504 Only	Accommodation	<i>May be provided as a non-embedded support.</i>	ABLE TO MOVE, STAND, OR PACE during assessment in a place that is not distracting to others and where others' work cannot be seen. SSD Online: Other modified setting

The ideal group size is two to eight students. Students in small groups should have the same or similar accommodations. SSD Online: Small Group Testing
Spanish Edition	PSAT10_SAT	EL ONLY	Accommodation	SPANISH EDITION. <i>Spanish editions of the PSAT 10 and SAT School Day tests are not available.</i>	
	NGSA	EL	Accommodation for EL Students	SPANISH EDITION OF SCIENCE TEST. Spanish and English translations for test items are available through a toggle screen for EL students. Students will be able to go back-and-forth between English and Spanish to answer test items in either, or both, languages. If a student also requires a read-aloud, the TTS feature will work in both English and Spanish, depending on which screen the student is displaying. NGSA TIDE: Spanish Edition	PAPER-BASED EDITION OF SPANISH (SCIENCE). Preprinted Spanish science tests are not available. If an EL student requires a printed science test, items must be printed individually using the Print-on-Demand feature. All responses must be transcribed (see below) in order to be scored. NGSA TIDE: Spanish Edition <i>and</i> Print-on-Demand TRANSCRIPTION. Students using the paper-based edition in English or the Print-on-Demand version of the Spanish test must have the test administrator transcribe the student's responses into the Test Delivery System (TDS) before the end of that testing session. Instructions are included in the Test Administrator Manual.
Spanish Edition	RICAS	EL Only	Accommodation	SPANISH EDITION OF RICAS MATH. Computer-based edition in Spanish of the math tests may be administered to any EL student who meets one of these criteria: <ul style="list-style-type: none"> • has a low level of English proficiency, • is currently receiving or has received mathematics instruction in Spanish, or • has little or no familiarity with technology. NOTE: The Spanish version of the math test does not have English versions of the test items. RICAS PNP Column AS (Spanish Edition)	SPANISH EDITION OF RICAS MATH. Paper-based options for EL students are on page 45 .
Speech-to-text, Scribe, Dictates,	ACCESS	IEP/504 Only	Accommodation	AAC DEVICES. AAC is considered the voice of a student who is unable to produce functional speech. Use of an	SCRIBE. The test administrator marks or writes student responses into the student response booklet as the

<p>or Records Responses</p>				<p>AAC during testing should be consistent with the student’s day-to-day instruction and communication methods and is not considered an accommodation. <i>See the WIDA Accommodations and Accessibility Features Manual, page 24 for instructions on how to administer the ACCESS tests to students using AAC devices.</i></p>	<p>student dictates responses either verbally, using an external speech-to-text device, an augmentative communication device (e.g., picture/word board), or by gesturing, pointing, or eye gazing. All responses must be transcribed at the time of testing. Available for: Listening, Reading, Writing WORD PROCESSOR OR SIMILAR KEYBOARDING DEVICE USED TO RESPOND TO TEST ITEMS. Student responds using standalone/external word processing or similar keyboarding device that is not compatible with the online test platform. Available for Listening, Reading, Writing <i>See WIDA Accommodations and Accessibility Features Manual for more information on planning for and administering tests using this accommodation and Appendix B for transcription guidance.</i> STUDENT RESPONDS USING RECORDING DEVICE. Student has a documented disability that affects their ability to write or process language. The student responds by using a recording device to respond, which is played back and transcribed by the student. Available only for Writing. <i>See the WIDA Accommodations and Accessibility Features Manual for information on planning and administering tests using this accommodation.</i></p>
<p>Speech-to-text, Scribe, Dictates, or Records Responses</p>	<p>DLM</p>	<p>IEP/504 Only</p>	<p>Accommodation</p>	<p><i>May be provided as a non-embedded support.</i></p>	<p>TEST ADMINISTRATOR ENTERING STUDENT RESPONSES. If a student is unable to input their own responses, they may indicate their responses through their typical response/communication mode (e.g., eye gaze, gesture). Test administrators may key in those responses only when the student is unable to record their responses. DLM PNP Profile: Test Administrator Entering Student Responses</p>
<p>Speech-to-text, Scribe, Dictates, or Records Responses</p>	<p>NGSA</p>	<p>IEP/504 Only</p>	<p>Accommodation</p>	<p>SPEECH-TO-TEXT (STT). A student uses a speech-to-text program. There are two options: 1. STT program on a separate computer if program is not compatible with the Test Delivery System. 2. Use Permissive Mode to run STT programs such as Dragon Naturally Speaking, which will work with the Test Delivery System. Always test the functionality of the student’s STT program prior to testing to ensure</p>	<p>HUMAN SCRIBE. A human scribe records the student’s responses verbatim during testing either into the Test Delivery System (TDS) directly or the student’s answer booklet. NGSA TIDE: SCRIBE SPEECH-TO-TEXT. A student uses an external speech-to-text program that is not compatible with the Test</p>

compatibility. Select Permissive Mode in TIDE prior to testing.

NGSA TIDE: Speech-to-Text *and* Permissive Mode.

NOTE: NGSA does not contain constructed response items; only multiple-choice items. If a student has a STT accommodation in their IEP for writing, they may not need it for this test. You may want to consider human scribe or dictation as an accommodation instead.

Delivery System on a separate computer to generate their responses to the test questions.

STUDENT RECORDS RESPONSES. Student uses an external augmentative communications device (other than a smartphone) to dictate or generate responses under the direct supervision of a test administrator using one of the options below.

TRANSCRIPTION: Students using one of the accommodations above must also have the test administrator transcribe the student’s responses verbatim directly into the Test Delivery System (TDS) at any time prior to the end of the testing window.

EXTERNAL AUDIO RECORDING DEVICE. The student uses an external recording device (other than a smartphone) while reading the test aloud, then the responses are transcribed by either the student or the test administrator into the answer booklet while playing back recorded segment(s). Responses must be deleted from the device once transcription is completed.

NGSA TIDE: Not Recorded

VIDEO RECORDING DEVICE. Student who is deaf or hard-of-hearing uses a video to record their signed responses to test items, then the responses are transcribed by either the student or the test administrator into TestNav while playing back recorded segment(s). Any recorded responses must be deleted from the device once transcription is complete.

NGSA TIDE: Not Recorded

INTO TEST BOOKLET. Responses to test items are recorded by the student in the test booklet, rather than the answer booklet. Responses must be transcribed by a test administrator into the answer booklet. If the student transcribes his or her own responses, the transcription must occur during the test session and be completed on the date in which the test session began.

NGSA TIDE: Not Recorded

Speech-to-text, Scribe, Dictates, or Records Responses

PSAT10_SAT

IEP/504 Only

Accommodation

SPEECH-TO-TEXT. Student uses speech-to-text program compatible with the Bluebook for responding to test items. Word prediction must be disabled for Speech to Text technology. Supported applications for Bluebook are:

- Apple Voice Control (Operating System)

SPEECH-TO-TEXT. Student uses speech-to-text program for responding to test items on separate computer. The online test delivery system can administer the digital test with Speech-to-Text.

SSD Online: Assistive Technology

- Chromebook Dictation (Operating System)
- Windows Speech Recognition/Dictation (Operating System)
- Dragon Naturally/Speaking (3rd Party Software)

WRITER/SCRIBE TO RECORD RESPONSES. *May be provided as a non-embedded support.*

WRITER/SCRIBE TO RECORD RESPONSES. Student responds orally for multiple choice items (e.g., student tells assessment administrator which answer they are selecting) and/or for responding to constructed response items for writing.

SSD Online: Writer/Scribe to Record Responses

RECORD ANSWERS IN TEST BOOKLET. The student records their responses to test items in the paper test booklet, rather than the answer booklet. Responses must be transcribed by a test administrator into the answer booklet. If the student transcribes his or her own responses, the transcription must occur during the test session.

Students who require this accommodation should take the paper edition of the SAT or PSAT 10.

SSD Online: Record Answers in Test Booklet

Speech-to-text, Scribe, Dictates, or Records Responses

RICAS

IEP/504 Only

Special Access Accommodation

SPEECH-TO-TEXT ON RICAS ELA TEST. This special access accommodation is only for students who meet at least one of the criteria in the next column.

If the student meets one of the criteria from the next column, and is taking the computer-based test, the student can communicate their responses to the RICAS ELA test items in one of the following ways:

1. **HUMAN SCRIBE.** *See next column for details on the computer-based test.*
2. **WEB EXTENSIONS.** Web extensions are available to download for Co:Writer Universal and Read&Write.
PNP Column AR (Web Extension AT Form) See the *Assistive Technology Guidelines for RICAS* and the *SR/ PNP Guide* for more information.
3. **COMPATIBLE STT.** A compatible STT device or software used on the same device as TestNav. See the *Assistive Technology Guidelines for RICAS* for instructions on determining compatibility with TestNav.
RICAS PNP Column X (Compatible Assistive Technology) and Column AJ (Speech-to-Text as a Special Access Accommodation [ELA])

SCRIBE ACCOMMODATIONS OPTIONS FOR ELA TEST. This special access accommodation is only for students who meet at least one of these criteria:

1. The student has a language-processing disability and requires the dictation of virtually all written responses to a scribe or an electronic speech-to-text conversion device to generate responses, OR
2. The student is unable to use his or her writing hand or arm at the time of testing due to a fracture, severe injury, or recovery from surgery. In this case, the accommodation can be administered as emergency accommodation. Please complete the [Emergency Accommodation Form](#) in Appendix E.

If the student meets one of the criteria above, the student can communicate their responses to the RICAS ELA test items in one of the following ways:

5. **HUMAN SCRIBE.** A human scribe records the student's responses verbatim (as dictated by the student) during testing directly into TestNav or the student's answer booklet. See Appendix J for RICAS scribe guidelines.
RICAS PNP Column AI (Human Scribe as a Special Access Accommodation [ELA])

4. **INCOMPATIBLE STT.** See next column for detail on using and setting up a speech-to-text device or software that is incompatible with TestNav.

6. **INCOMPATIBLE SPEECH-TO-TEXT (STT).** If the student uses an external STT program that is not compatible with TestNav, the test administrator must transcribe student responses directly into TestNav from the student’s separate, external workstation.

RICAS PNP Column AK (Speech-to-Text as a Special Access Accommodation [ELA])

7. **STUDENT DICTATES RESPONSES.** Student uses an external augmentative communications device (other than a smartphone) to dictate or generate responses under the direct supervision of a test administrator.

RICAS PNP Column: Not Recorded

TRANSCRIPTION: Students using one of the accommodations above must also have the test administrator transcribe the student’s responses verbatim either directly into TestNav or into the student’s answer booklet at any time prior to the end of the testing window.

RICAS PNP Column: Not Recorded

Accommodation

SPEECH-TO-TEXT OPTIONS FOR MATH. The student has a disability that affects their ability to write and they use a scribe or speech-to-text device or software to address this challenge during instruction throughout the day. There are four scribe and speech-to-text options available for students taking the computer-based RICAS math test in either English or Spanish:

1. **HUMAN SCRIBE.** See next column for details on using a human scribe for either the paper or computer based tests.
2. **WEB EXTENSIONS.** The web extensions available for Co:Writer Universal and Read&Write **will not work** on the math tests because they interfere with the Equation Editor. Instead, use either a separate device with a STT program of the student’s choice or a Human Scribe. See the next column for details.
3. **COMPATIBLE SPEECH-TO-TEXT (STT).** A compatible STT device or software used on the same testing device as TestNav. See the Assistive

SCRIBE ACCOMMODATIONS OPTIONS FOR MATH: The student has a disability that affects their ability to write and they use a scribe or speech-to-text device or software to address this challenge during instruction throughout the day. There are four scribe and speech-to-text options available for students taking the computer-based or paper-based RICAS math test in either English or Spanish:

1. **HUMAN SCRIBE.** A human scribe records the student’s responses verbatim during testing directly into TestNav or into the student’s answer booklet in either English or Spanish. See Appendix J of this manual for scribe guidelines for both English and Spanish math tests.
 - *Spanish Mathematics Tests:* Test administrators may not translate student responses into English if the student is taking the Spanish math test.
 - Test student individually in a separate setting.
- RICAS PNP Column AH (Human Scribe as Standard Accommodation [Mathematics])

Technology Guidelines for RICAS for instructions on determining compatibility with TestNav.
PNP Column: X (Compatible Assistive Technology). See the *SR/PNP Guide* for more information.

4. **INCOMPATIBLE STT.** See *SPEECH-TO-TEXT DEVICE OR SOFTWARE* in the next column for details on using and setting up a speech-to-text device or software that is incompatible with TestNav.

EMERGENCY ACCOMMODATION: For students who have injured their writing hand due to a fracture or recovery from surgery, speech-to-text options are available as an emergency accommodation. We do not recommend using STT software if the student is not already comfortable with using it. Instead, we recommend using a human scribe instead.

2. **SPEECH-TO-TEXT DEVICE OR SOFTWARE.** A speech-to-text device or software of the student's preference is set up on a separate computer and the student takes the paper-based test. See the *Assistive Technology Guidelines for RICAS* for instructions on determining compatibility with TestNav.

PNP Column: AJ (Speech-to-Text as a Standard Accommodation [math]). See the *SR/PNP Guide* for more information.

3. **STUDENT DICTATES RESPONSES USING AAC.** Student uses an external assistive/augmentative communications device (other than a smartphone) to dictate or generate responses under the direct supervision of a test administrator using one of these options:

a. **AUDIO RECORDING DEVICE.** The student uses an external recording device (other than a smartphone) to record their responses to test items, then the responses are transcribed by either the student or the test administrator into the answer booklet (if taking the paper test) or into TestNav (if taking the computer-based test) while playing back recorded segment(s). Delete responses from the device once transcription is complete.

RICAS PNP Column: Not Recorded

b. **VIDEO RECORDING DEVICE.** Student who is deaf or hard-of-hearing uses a video to record their signed responses to test items, then the responses are transcribed by either the student or the test administrator into the answer booklet (if taking the paper test) or into TestNav (if taking the computer-based test) while playing back recorded segment(s). Delete any recorded responses from the device once transcription is complete.

RICAS PNP Column: Not Recorded

HOW TO SUBMIT STUDENT RESPONSES FOR SCORING:
Use one of these options to submit student responses for scoring:

					<p>TRANSCRIPTION. The test administrator transcribes the student’s responses verbatim directly into TestNav at any time prior to the end of the testing window, in either English or Spanish, depending on the test the student takes.</p> <p>Spanish Math Tests: Test administrators may not translate the student’s responses into English. Transcribe all responses into TestNav or the Spanish paper test booklet exactly as dictated, recorded, or typed by the student.</p> <p>TYPED RESPONSES. Print one response per page and insert into the student’s answer booklet with all required information on each page (<i>see appropriate appendix in the Test Administrator’s Manual</i>). Transcription into the student answer booklet is not necessary. After printing, delete all responses from word processor or device.</p> <p>Spanish Math Tests: Test administrators may not translate the student’s responses into English. Follow instructions above.</p> <p>RICAS PNP Column AL (Typed Responses)</p> <p>EMERGENCY ACCOMMODATION: <i>See Emergency Accommodations.</i></p>
<p>Spell-checker for the ELA Test</p>	<p>RICAS</p>	<p>IEP/504 Only</p>	<p>Special Access Accommodation</p>	<p>SPELL-CHECKER. The student has a disability that affects their ability to spell and requires a spell-checking device or software. Students who receive this accommodation must meet the criteria below.</p> <p>Criteria: This accommodation is intended for a student who has a documented disability that severely limits or prevents them from spelling correctly, even after varied and repeated attempts to teach the student to do so, as documented by locally administered diagnostic evaluations. The student must meet <i>all</i> of the following criteria:</p> <ul style="list-style-type: none"> • The student is virtually unable to spell simple words (i.e., at the beginning stages of learning how to spell). • The student produces understandable written work only when provided this accommodation, which the student uses during routine instruction; and • The student receives ongoing intervention to learn the skill. <hr/> <p>EMBEDDED SPELL-CHECKER: The student may use the embedded spell-checker in TestNav or an external spell-checking device for ELA. <i>See next column for information on using an external device.</i></p> <p>RICAS PNP Column AN (Spell Checker)</p>	<p>EXTERNAL SPELL-CHECKER: The student will use an external spell-checking device for ELA. Grammar check and internet access must be turned off.</p> <p>RICAS PNP Column AN (Spell Checker)</p>

Stay on track	PSAT10_SAT	IEP/504 Only	Accommodation	<i>May be provided as a non-embedded support.</i>	STAY ON TRACK. Teacher provides visual, auditory or physical cues to student to begin, maintain, or finish a task. Student cannot be cued to move on to the next question. SSD Online: Other
Streamline Mode	NGSA	Any Student	Accessibility Feature	STREAMLINE MODE. <i>This is an accessibility feature for NGSA.</i>	
Translation of General Test Directions	ACCESS	EL	Accommodation	<i>May be provided as a non-embedded support.</i>	TRANSLATION OF GENERAL TEST DIRECTIONS. For students who speak languages other than English and Spanish and require translated directions, the test administrator may translate general test directions. The test administrator must be fluent in reading and speaking the student's native language. ONLY the general test directions may be translated. Translating ANY part of the item stimulus, questions, reading passages, or response items is a test irregularity.
Word Prediction	NGSA	IEP/504 Only	Accommodation	WORD PREDICTION. <i>The NGSA Science test does not have constructed response test items, so while the student may have this accommodation in their IEP or 504 Plan, it may not be necessary for this assessment.</i>	
	PSAT10_SAT	IEP/504 Only	Accommodation	WORD PREDICTION. SAT and PSAT 10 do not have constructed response or essay test items, so while the student may have this accommodation in their IEP or 504 Plan, it may not be necessary for these assessments.	
Word Prediction	RICAS	IEP/504 Only	Special Access Accommodation	WORD PREDICTION ON RICAS ELA TEST. This special access accommodation is only for students who meet at least one of the criteria in the next column. <ul style="list-style-type: none"> • Web extensions are available to download for Co:Writer Universal and Read&Write. • Web extensions must be designated in the student's SR/PNP for Co:Writer or Read&Write. DO NOT ORDER THE AT TEST FORM FOR THIS ACCOMMODATION. • As with all technology, the student should use the practice test to familiarize themselves with the web extension. • Detailed instructions for accessing the web extensions are in the <i>RICAS Assistive Technology Guidelines.</i> (www.ride.ri.gov/accommodations) 	WORD PREDICTION FOR THE ELA TEST. The student must use an external word prediction device that provides a bank of frequently or recently used words after the student types the first few letters of a word. The student must meet all of the following criteria in order to receive this accommodation: <ol style="list-style-type: none"> 1. have a disability or disabilities that severely limit or prevent them from recalling and processing language to write or keyboard written responses without the use of a word prediction device, application, or software; AND 2. can access written expression only through the use of word prediction software that they use routinely to generate written responses. A test administrator must facilitate the transfer of information from the external device to the answer booklet or onscreen. Written responses must either be transcribed by the student at the time of testing or

transcribed by an adult prior to the end of the testing window.

NOTE: During testing, internet access must be turned off/restricted; and the “predict-ahead” and “predict online” functions must be turned off since these functions automatically select words for the student.
RICAS PNP Column AO (Word Prediction)

*Beginning in April 2022, the essay portion of the SAT will not be included as part of the state assessment program.

APPENDIX B: Documentation of Accommodations for an EL Student

Sample Form (Optional)

Use this form to document the selection of **accessibility features and accommodations** for each EL student. Available accessibility features and accommodations are listed in the *RISAP Accommodations and Accessibility Manual*. This form should be completed within 60 days of the start of school year or student's date of enrollment and must be **updated annually**. Accommodations decisions for EL students with disabilities must also be documented in the student's IEP or 504 plan.

Student Name: _____ **School Year:** _____

Grade: _____ **SASID:** _____

School: _____ **District:** _____

Name of staff and others who determined the test accommodations and features for the student:

Teacher(s) _____

Others (including student and/or parent) _____

If the **parent** and/or **student** were not part of the decision-making process, then they should be notified of the features and accommodations the student will receive on the tests.

Directions: Indicate the **accessibility features and accommodations** that will be provided to the student on each statewide assessment they will be taking.

Accessibility Feature or Accommodation Needed by the EL Student for Testing	Notes/Comments
(Continue on additional pages as needed.)	

APPENDIX C: Student Accommodation Refusal Form

Sample Form (Optional)

If a student refuses an accommodation listed in his or her IEP or 504 plan, the school should document in writing that the student refused the accommodation, and the accommodation must be offered and remain available to the student during testing.

This form can be completed and placed in the student's file, and a copy sent to the parents. IEP teams, 504 plan coordinators, and educators making accommodations decisions for ELs should consider this information when making future accommodations decisions for the student. Use of this form is encouraged, but not required.

Student Name: _____	Date: _____			
Grade: _____	SASID: _____			
School: _____				
District: _____				
Test (circle):	ACCESS for ELLs	ALT ACCESS for ELLs	DLM	RICAS
	NGSA	PSAT10	SAT	
Test Administrator: _____				
Accommodation(s) refused by student _____				

Reason for refusal: _____				

Comments: _____				

Keep this form on file at the school. Do *not* submit this form with your school's test materials.

APPENDIX D: Unique Accommodation Form

Downloadable Form: Find an interactive copy of this form at www.ride.ri.gov/accommodation

Directions: To request approval for a unique accommodation, this form must be submitted to **RIDE by fax to 401-222-3605** by the principal or designee or District Testing Coordinator or designee, at least six weeks prior to testing to ensure a timely response from RIDE. **DO NOT EMAIL.**

DISTRICT/SCHOOL ASSURANCES: In submitting this form for approval, the principal/designee or assessment coordinator assures that:

- This accommodation will be documented in the student’s IEP, 504 Plan, or EL plan. In the case of an IEP, the parent/guardian of the student must sign the amended IEP prior to testing.
- The school team has met and considered all listed accommodations before proposing this unique accommodation.

The proposed accommodation is used, as appropriate, for routine classroom instruction and assessment.

NOTES:

APPENDIX E: Emergency Accommodation Form

Downloadable Form: Find an interactive copy of this form at www.ride.ri.gov/accommodation

Use this form in cases where a student needs a new accommodation immediately prior to the assessment due to unforeseen circumstances. This may include a student who has recently fractured a limb (e.g., fingers, hand, arm, wrist, or shoulder); whose only pair of eyeglasses broke; or they are returning from a serious or prolonged illness or injury.

Directions: If the principal (or designee) determines the student requires an emergency accommodation, complete this form and submit to the district testing director so it can be retained in the student’s file. Notify the parent that an emergency accommodation will be used during testing. Do not submit this form to RIDE.

District/LEA Name:	Date:

* Submit emergency accommodations requests for PSAT 10 and SAT through SSD Online.

APPENDIX F: SAT and PSAT 10 Questionnaire for Extended Time, Reader, Scribe, and Breaks

Downloadable Form: Find an interactive copy of this form at www.ride.ri.gov/accommodation

APPENDIX G: Providing the Sign Language Accommodation

Although it is understood that the nature of this accommodation requires individualized delivery in the communication method familiar to the student, individuals providing the sign language accommodation for the ACCESS, PSAT 10, SAT, NGSA, RICAS, and DLM assessments must follow these procedures during testing to ensure standardization of delivery.

Procedures for Providing the Sign Language Accommodation

- Signers must be trained in test administration policies for the test they are administering and as provided in online training modules or in-person training opportunities provided by the district or school.
- Individuals providing the sign language accommodation must sign the security agreement.
- Signers should use signs that are conceptually accurate, with or without simultaneous voicing, translating only the content that is presented, and without changing, emphasizing, or adding information. Signers may not clarify (except for test directions), provide additional information, assist, or influence the student's selection of a response in any way. Signers must do their best to use the same signs if the student requests a portion repeated.
- Signers must sign (or sign and speak when using Sim-Com [Simultaneous Communication]) in a clear and consistent manner throughout the test administration, using correct pronunciation, and without inflections that may provide clues to, or mislead, a student.
- Signers should emphasize only the words printed in boldface, italics, or capital letters and inform the student that the words are printed that way. No other emphasis or inflection is permitted.
- Signers may repeat passages, test items, and answer options as requested, according to the needs of the student. Signers should not rush through the test and should ask the student if they are ready to move to the next item.
- Signers may not attempt to solve problems or determine the correct answer to a test item while signing, as this may result in pauses or changes in inflection that may mislead the student.
- Signers must use facial expressions consistent with sign language delivery and must not use expressions that may be interpreted by the student as approval or disapproval of the student's answers.
- Test Administrators must be familiar with the student's IEP and should know in advance which accommodations are required by the student. Test Administrators must be aware of whether a student requires additional tools, devices, or adaptive equipment that have been approved for use during the test, such as a magnifier, closed circuit television (CCTV), abacus, braille, slate, stylus, etc., and if use of these tools impacts the translation of the test, the signer should be aware of this.
- Upon review of the test, if a human signer is unsure how to sign and/or pronounce an unfamiliar word, the signer should collaborate with a content expert who is fluent in sign language (if available) to determine which sign is most appropriate to use. If the signer is unable to obtain this information before the test, the signer should advise the student of the uncertainty and spell the word.
- When using a sign that can represent more than one concept or English word, the signer must adequately contextualize the word to reduce ambiguity. The signer may also spell the word after signing it if there is any doubt about which word is intended.
- Signers must spell any words requested by the student during the test administration.
- When test items refer to a particular part of the text, the signer must re-sign the lines before signing the question and answer options. For example, the signer should sign, "Question X refers to the following part [paragraph]...", then sign that part to the student, followed by question X and the answer options.

- **RICAS ELA Only:** When test items refer to a particular part of a passage, **the signer cannot sign any part of the passage.** The signer can sign line or stanza numbers for passages before signing the question and answer options. For example, the signer should sign, “Question X refers to the following lines [paragraph]...,” then sign the line or passage numbers, followed by question X and the answer options.
- When signing selected-response items, signers must be careful to give equal emphasis to each answer option and to sign all answer options before waiting for the student’s response.
- When answer options will be scribed, the signer should inform the student at the beginning of the test that if the student designates a response choice by letter only (“B,” for example), the signer will ask the student if they would like the response to be signed again before the answer is recorded.
- If the student chooses an answer before the signer has signed all the answer options, the human signer must ask if the student wants the other answer options to be signed.
- After the signer finishes signing a test item and all answer options, the signer must allow the student to pause before responding. If the pause has been lengthy, the signer should ask: “Do you want me to sign the question or any part of it again?” When signing questions again, signers must avoid emphasizing words not bolded, italicized, or capitalized.

Sign-System-Specific Procedures

Signers must deliver the accommodation in the language or communication mode used by the student according to the student’s IEP.

American Sign Language (ASL)

Signers delivering the accommodation via ASL must use appropriate ASL features (including signs, sentence structure, non-manual markers, classifiers, etc.) while protecting the construct being measured by the assessment. The signer must be careful not to cue the student.

English-Based Sign Systems (PSE, Sim-Com, etc.)

Signers delivering the accommodation via an English-based signing system (PSE, Sim-Com, etc.) must use the features of the communication mode used by the student. Signers delivering the test in English-based signing systems should use the rules of those signing systems (conceptually accurate signs, English word order, etc.), with or without simultaneous voicing.

APPENDIX H: RICAS Calculator Policy

The calculator types available to students on the RICAS mathematics tests for the computer- and paper-based tests are shown in the table below. Please keep the following in mind:

- Any 7th or 8th grade student may use one of the handheld calculators listed instead of the calculator embedded in TestNav. No accommodation is necessary if used on the calculator section of the test.
- At a minimum, 7th and 8th grade students should have access to a 5-function calculator.
- **Non-calculator sessions of any RICAS math test:** unless a student meets the criteria for receiving a calculator or other calculation tool during a non-calculator section of the test, no calculators are provided in TestNav and no handheld calculators should be made available.

Grade	Calculators Provided in TestNav	Allowable Handheld Calculators (computer- and paper-based tests)
3	None	None
4	None	None
5	None	None
6	None	None
7	5-function	5-function Scientific Graphing
8	Scientific	5-function Scientific Graphing

APPENDIX I: PSAT 10 and SAT Calculator Policy

Acceptable calculators for the mathematics tests:

- all scientific calculators
- all four-function calculators. Four-function calculators can be used by students but are not recommended due to the level of mathematics being assessed on the PSAT 10 and SAT.
- the following graphing calculators. If a graphing calculator is not listed below, as long as it meets the criteria under Unacceptable Calculators, it can be used during testing.

Unacceptable Calculators

Students may not use:

- computers or tablets not used for testing, cell phones, smartphones, smartwatches, or wearable technology
- Calculators that can access the internet or that have wireless, Bluetooth, cellular, audio/visual recording and playing, camera, or any other smartphone-type features
- Calculators that have a QWERTY keypad, pen/stylus, or touchpad input. The calculator may be approved without the use of a stylus.

APPENDIX J: Scribe Guidelines

A scribe is an adult who writes down what a student dictates in a variety of ways (e.g., speech, American Sign Language (ASL), braille, assistive communication device). The guiding principle in scribing is to ensure that the student has access to and is able to respond to test content.

Qualifications for Scribes

- The scribe should be familiar with the student, such as the teacher or teaching assistant who is typically responsible for scribing during educational instruction and assessments.
- Scribes must meet the criteria outlined in the *RISAP Test Coordinator Handbook*.
- Scribes must have completed all training for administering the test, including security policies and procedures outlined in the selected test's test administrator manual.

Preparation for Scribes

- Scribes should read and sign a test security/confidentiality agreement prior to test administration.
- Scribes are expected to familiarize themselves with the test format in advance of the scribing session. Having a working familiarity with the test environment will help facilitate the scribe's ability to record the student's answers. Scribes may wish to review the practice test to become familiar with the assessment.
- Scribes should be familiar with the Individualized Education Program (IEP) or 504 plan if the student for whom they are scribing has a disability, so that there are plans in place for providing all needed designated supports and accommodations.
- Scribes should also have a strong working knowledge of the embedded and non-embedded universal tools, designated supports, and accommodations available on the test.
- Scribes should review the guidelines and procedures they will use during testing with the student at least one to two days prior to the test event.
- Scribes should practice the scribing process with the student at least once prior to testing.

General Scribe Guidelines

- This accommodation should be administered in a separate location, in a one-on-one setting.
- Scribes should answer all procedural questions asked by the student (e.g., test directions, navigation within the test environment).
- Scribes are expected to comply with student requests regarding use of all available features within the test environment.
- For computer-based administrations, scribes must enter student responses directly into the test interface exactly as the student dictates.
- Scribes may not respond to student questions about test items if their responses compromise validity of the test. The student must not be prompted, reminded, or otherwise assisted in formulating his or her response during or after the dictation to the scribe.
- Scribes may ask the student to restate words or parts as needed. Scribes may not suggest or hint or otherwise communicate to the student that they should make a change or correction to their answer.
- Scribes may not question or correct student choices, alert students to errors or mistakes, prompt or influence students in any way that might compromise the integrity of student responses. A scribe may not edit or alter student work in any way and must record exactly what the student has dictated.
- Students must be allowed to review and edit what the scribe has written. If necessary, the student can request the scribe to read aloud the completed text before final approval.
- For scribes working with students using ASL or other sign system, all ASL guidelines must be followed and the scribe must either be proficient in ASL or working with an ASL interpreter.

RICAS ELA Scribe Guidelines

A human scribe or speech-to-text are accommodations that allow students to provide their responses orally to a test administrator who will write or keyboard the responses directly onscreen or into the student's test booklet. Students who receive this accommodation may respond to test questions either through:

- verbal dictation to a human scribe
- a speech-to-text device or other augmentative/assistive communication device (e.g., picture/word board)
- signing (e.g., American Sign Language, signed English, Cued Speech),
- gesturing or pointing
- eye-gazing

Clarification on the **role of a scribe** for the ELA test:

- The test must be administered individually in a separate setting.
- The scribe may enter student responses either onscreen (computer-based test) or in the student's answer booklet (paper-based test) at the time of testing. Test administrators who review the test will be asked to sign non-disclosure agreements.
- The scribe must write exactly what the student dictates. The scribe may not edit or alter the student's dictation in any way. When scribing, the scribe may assume that each sentence begins with an upper-case letter and ends with a period. All other capitalization, punctuation, and paragraph breaks are the responsibility of the student.
- After the student has finished dictating his or her response(s), the scribe must ask the student to review the draft and make any necessary edits, including capitalization, punctuation, spelling, and paragraph breaks.
- The student may make edits independently or may direct the scribe to make the edits.
- The scribe must not assist the student in making decisions during the editing process.

Guidelines for Transcribing Student Responses

Circumstances may occur during test administration that may require a test administrator to **transcribe** a student's responses into a combined test and answer booklet, answer booklet, or onscreen. Transcribing responses by a test administrator may occur at any time until the end of the test window under secure conditions supervised by the principal (or designee). These situations may include:

- answers recorded in the wrong section of, or in an incorrect, combined test & answer booklet, answer booklet, or computer-based test.
- a student took the test using a special test format requiring that answers be transcribed; e.g., Braille, large print. (Braille responses must be transcribed by persons fluent in Braille.)
- a student uses speech-to-text software, or augmentative communication, or an assistive technology device and prints responses for transcription by a test administrator.
- A student recorded answers on blank paper, instead of in the required combined test & answer booklet, answer booklet of computer-based test, as an accommodation.
- The combined test & answer booklet or document becomes unusable; e.g., torn, wrinkled, or contaminated.

In cases where a student's responses must be transcribed *after* test administration is completed, the following steps must be followed:

- at least two persons must be present during any transcription of a student's responses. At least one

of the individuals must be an authorized test administrator; the other a principal or designee.

- the student’s response must be transcribed verbatim into the combined test & answer booklet (or separate answer booklet for legacy tests) or computer-based test.
- the student’s original printed responses must either be securely shredded or returned with the school’s nonscorable materials.

NGSA Scribe Guidelines

For scribes working with students using Braille:

- In addition to the scribe guidance on page 102, the scribe should be proficient in reading (visually or tactually) braille in UEB.
- The scribe should enter the responses in the paper test booklet or online exactly as the student has brailled.
- The scribe may ask for the student to read back brailled responses for clarification if the brailled response is difficult to read due to student corrections.
- Students may review the written or typed response on paper or on the computer screen by either using the scribe to read back the entered response or using assistive technology. Students may indicate any changes or revisions to the scribe.
- When the student has finished testing (the end of the test session), the scribe will immediately collect all scratch paper and rough drafts, and:
 - **(if online)** at the direction of the student, will submit the student’s responses through the TDS. The scribe will then collect the login ticket, and deliver all collected materials to the Test Administrator and confirm the student’s test has been submitted.
 - **(if paper booklet)** deliver the paper booklet and all other collected materials to the Test Administrator. The Test Administrator will then need to login to the Data Entry Interface (DEI) to transfer the student’s responses from the paper booklet exactly as indicated by the student into the DEI before the end of the testing window when the Test Coordinator ships all completed booklets. See Appendix C of the *RI NGSA Test Coordinator Manual* for guidance on using the DEI.

For scribes working with students taking the online test in Spanish:

- In addition to the general scribe qualifications, preparation, and guidelines above, the scribe should be proficient in reading, writing, and speaking Spanish.
- Students will need the following settings in the TIDE/TDS before testing: Spanish version (embedded), scribe (non-embedded), 1:1 administration (non-embedded).
- The scribe should enter the responses in the Test Delivery System (through the student’s login) exactly as the student indicates.
- When the student has finished testing (the end of the test session), at the direction of the student, the scribe will submit the student’s responses in the TDS. The scribe will then immediately collect all scratch paper and the login ticket and deliver those to the Test Administrator (or Test Coordinator, if the scribe is administering the test to this student).

For scribes working with students taking the test in Spanish using “print-on-demand” (i.e., paper edition Spanish version) in regular font size or large print:

- In addition to the general scribe qualifications, preparation, and guidelines above, the scribe (test administrator) should be proficient in reading, writing, and speaking Spanish.

- Students will need the following settings in the TIDE/TDS before testing: Print-On-Demand (embedded), Spanish version (embedded), Text magnification (if large print), scribe (non-embedded), 1:1 administration (non-embedded).
- **Technology needed:** separate computer for the Test Administrator to approve the print requests for each item (see the *RI NGSA Test Administrator Manual*, page 71); printer to print the items for the student. These are secure items so the printer must be in the same room as the test is administered.
- Once the student has logged into the TDS and begun testing, the student (or scribe/Test Administrator) will have the ability print items from the test. There are two ways: selecting the “Print Item” option from the Context menu for that item, or selecting “Print Page” and “Print Stimuli” from the Global Menu (see the *Guide to the Student Interface of the TDS*). Once the print request has been generated, the Test Administrator will need to approve the request in TIDE and submit the item to the printer (see the *RI NGSA Test Administrator Manual*, page 71).
- Printed items, like paper test booklets, are considered secure materials. As such, keep track of all printed items both for security purposes and to reduce duplicate prints if a student wants to return to a particular item in that session for review (e.g., use paper clips to combine stimuli with their items, organize in order of the test for easier reference).
- The scribe should enter the student’s responses into the TDS exactly as indicated by the student.
- When the student has finished testing (the end of the test session), at the direction of the student, the scribe will submit the student’s responses in the TDS. The scribe will then immediately collect all printed items, scratch paper, and the login ticket and deliver those to the Test Administrator (or Test Coordinator, if the scribe is administering the test to the student). Printed items must be shredded immediately as they are secure materials and will not be shipped with the paper test booklets.

APPENDIX K: RICAS and NGSА Read Aloud (Human Reader) Guidelines

When a student cannot access text-to-speech and instead requires a human reader, or *test reader*, the following guidelines will help the test reader prepare to administer the test. Because the student depends on the test reader to read the test questions accurately, pronounce words correctly, and speak in a clear voice throughout the test, the person providing the read aloud must meet the qualifications and follow the guidelines below.

Qualifications for Test Readers:

- The test reader should be an adult who is familiar with the student, and who is typically responsible for providing this support during educational instruction and assessments.
- Test readers must meet the qualifications for test administrators found in the *RISAP Test Coordinator Handbook*.
- *For the NGSА science test:* Test readers must be familiar with the terminology and symbols used on the NGSА test.
- *For Spanish RICAS Math and NGSА Science Tests:* Test readers must be fluent in reading, writing, and speaking Spanish.

Requirements:

- Test readers must read and sign a test security agreement prior to test administration.
- Test readers must familiarize themselves with the test and participate in any online and/or in-person training sessions held by the district, school, or provided online before the testing session.
- Test readers must be familiar with these read aloud guidelines and any other accommodation or test supports required by the student.
- Test readers must practice with the student prior to testing so both the student and the test reader are familiar with the read aloud process.

Guidelines for Administering Human Read Alouds:

- **Read aloud of the RICAS ELA test:** Make sure the student meets the criteria to receive a read aloud before administering the ELA test. If you have questions, consult with your district special education director.
- Read aloud must be conducted in a separate setting, either individually or in a group of 2-5 students.
- Read each question exactly as written and as clearly as possible.
- Adjust your reading speed and volume as requested by the student and maintain a neutral tone, facial expression, and posture.
- Avoid gesturing, head movements, and verbal or non-verbal emphasis on words not otherwise emphasized in text.
- Do not discuss the test questions with the student. This is a violation of test security; respond to the student's questions by repeating the item, words, or instructions verbatim as needed.
- Do not paraphrase, interpret, define, or translate any items or words. This is a violation of test security. EL students requiring translations of items or words may use a word-to-word dictionary or glossary.

Language Usage/Conventions

- Read all text as punctuated.
- Quotation marks should be verbalized as "quote" and "end quote" at the beginning and end of quoted material, respectively.
- **For students with visual impairments.** For words printed in boldface, italics, underlined, or capitals, tell the student the words are printed that way. Do not emphasize words not already emphasized in print. Emphasis is appropriate when italics, underlining, or bold is used in the prompt, question, or answers.

Diagrams/Pictures/Maps for Students who are Visually Impaired

- Describe the diagram, picture, or map as concisely as possible following a logical progression. Focus on providing necessary information and ignoring the superfluous. Use grade-appropriate language when describing the image/graphic.
- Read the title or caption, if available.
- Any text that appears in the body of an image may be read to a student. Read text in images in the order most suited for the student's needs. Often the reader moves top to bottom, left to right, in a clockwise direction, or general to specific in accordance with teaching practices.

Graphs/Tables/Keys for Students who are Visually Impaired

- Read the title of the graph, table, or key first.
- Read the label and numbers on each axis second, referring to the horizontal axis at the bottom and vertical axis as the left side of the graph.
- For data tables, first read the title of the data table. If the data table has two or more columns, read as follows:
 - The heading of the left column is...
 - The heading of the right column is...
 - The data from left to right are as follows:
 - row one:
 - row two:
 - row three:
- Test readers must read scientific equations and symbols with technical accuracy and according to the charts on the following pages.

Description	Example(s)	Read As:
Large whole numbers	603,407,981 45,000,689,112	“six hundred and three million, four hundred and seven thousand, nine hundred eighty one” “forty-five billion, six hundred eighty-nine thousand, one hundred twelve”
Decimal numbers	0.056 4.37	“zero point zero five six” “four point three seven”
Fractions	$\frac{1}{2}, \frac{1}{4}, \frac{2}{3}$ $\frac{14}{25}$ $\frac{487}{6972}$	“one half, one fourth, two thirds, four fifths” Other common fractions include “sixths, eighths, tenths” “fourteen over twenty-five” “four hundred eighty-seven over six thousand, nine hundred and seventy-two”
Mixed numbers	$3\frac{1}{2}$ $57\frac{3}{4}$	read with “and” between whole number and fraction: “three and one-half” “fifty-seven and three fourths”
Percent	62% 7.5% 0.23%	“sixty-two percent” “seven point five percent” “zero point two three percent”
Money	\$4.98 \$0.33 \$5,368.00	“four dollars and ninety-eight cents” “thirty-three cents” “five thousand, three hundred and sixty-eight dollars”
Negative numbers • do NOT read negative sign as “minus”	- 3 $-\frac{5}{8}$ -7.56	“negative three” “negative five eighths” “negative seven point five six”
Dates (years)	1987 2005	“nineteen eighty-seven” “two thousand five”
Roman Numerals	I II III IV	“one” “two” “three” “four”
Ratios	$x:y$	“x to y”
Addition	$13 + 27 =$	“thirteen plus twenty-seven equals”
Subtraction	$487 - 159 =$	“four eight seven minus one five nine equals”
Multiplication	$63 \times 49 =$ $63 \times 49 = ?$	“sixty-three times forty-nine equals” “sixty-three times forty-nine equals question mark”

Division (<i>vertical or horizontal</i>)	$\frac{120}{15} = 8$	"one hundred twenty divided by fifteen equals eight"
Expressions or Formulas containing variables NOTE: any letter may be used as a variable.	$N + 4$ $8x - 3$ $4(y - 2) + 5 = 7$ $V = \frac{4\pi r^3}{3}$ $x^2y^3 = -36$ $156x \geq 4$	"'N' plus four" "eight 'x' minus three" "four open parenthesis 'y' minus two close parenthesis plus five equals seven" "Capitol 'V' equals four-thirds pi 'r' cubed" "'x' squared 'y' cubed equals negative thirty-six" or "'x' to the second power times 'y' to the third power equals negative thirty-six" "one hundred fifty-six 'x' is greater than or equal to four"
Coordinate Pairs	the point (-1, 2)	"the point (pause) negative one comma two"
Exponents	2^2 6^{-5} $3^{2.5}$ 2^x	"two squared" "six to the negative fifth power" "three to the two point five power" "2 to the x power"
Less Than	$<$ \leq	"is less than" "is less than or equal to"
Greater Than	$>$ \geq	"is greater than" "is greater than or equal to"
Similar To	\sim	"is similar to"
Plus or Positive	$+$	"plus" or "positive" depending on the context of the item.
Negative/Minus	$-$ -4°C -20°F -22°K	"minus" "negative four degrees Celsius" "negative twenty degrees Fahrenheit" "negative twenty-two degrees Kelvin"
Pi	π	"pi"
Theta	θ	"Theta"
Alpha	α	"Alpha"
Percent	$\%$	"percent"
Formulas	$p = \frac{m}{V}$	Read letters and numbers of scientific formulas exactly as they are printed; do not substitute the words that the letters represent. "p is equal to m divided by capitol V"
Scientific Units	3m 9.8 m/s^2	Abbreviated units should be described using the full word(s). "three meters" "nine point eight meters per second squared"

<p>Chemical Symbols</p>	<p>Sodium sulfate (Na₂SO₄)</p>	<p>If the item includes <i>both</i> the name of <i>and</i> the symbol of an element (or formula of a compound), read the name and symbol or formula first and then read the name of the element or compound every time thereafter.</p> <p>“sodium sulfate [pause] parentheses N-A two, S-O four parenthesis” and then “sodium sulfate” thereafter.</p>
	<p>Cl²</p>	<p>If only the symbol or formula appears within the test question, only the symbol or formula should be read:</p> <p>“C-L two” <i>not</i> “Chlorine” or “Chlorine gas”</p>

APPENDIX L: NGSА Simplified Test Directions Guidelines

Students with difficulties in auditory processing, short-term memory, attention, or decoding may benefit from having test directions simplified for them. This designated support may require testing in a separate setting to avoid distracting other test takers. This support is intended to ensure that students understand the directions for the test. **Only the script in the TAM may be simplified. Test content, including test items, stimulus material or passages, individual words from items, or instructions for individual items may NOT be simplified or paraphrased.**

Simplifying test directions should be consistent with classroom instruction and includes repeating or rephrasing.

Qualifications for Test Administrators Who Simplify Test Directions

Any test administrator who provides this test support on the NGSА should be:

- familiar with the student. Typically, the test administrator or teacher is responsible for providing this support during educational instruction and assessments.
- trained in administering the NGSА through online trainings and/or in-person training sessions held by the district or school in accordance with NGSА guidelines and policies.
- meet all criteria for being a test administrator as outlined in the *NGSА Test Coordinator Handbook* (www.ride.ri.gov/assessment-manuals)
- sign and abide by all requirements in the Test Security Agreement.

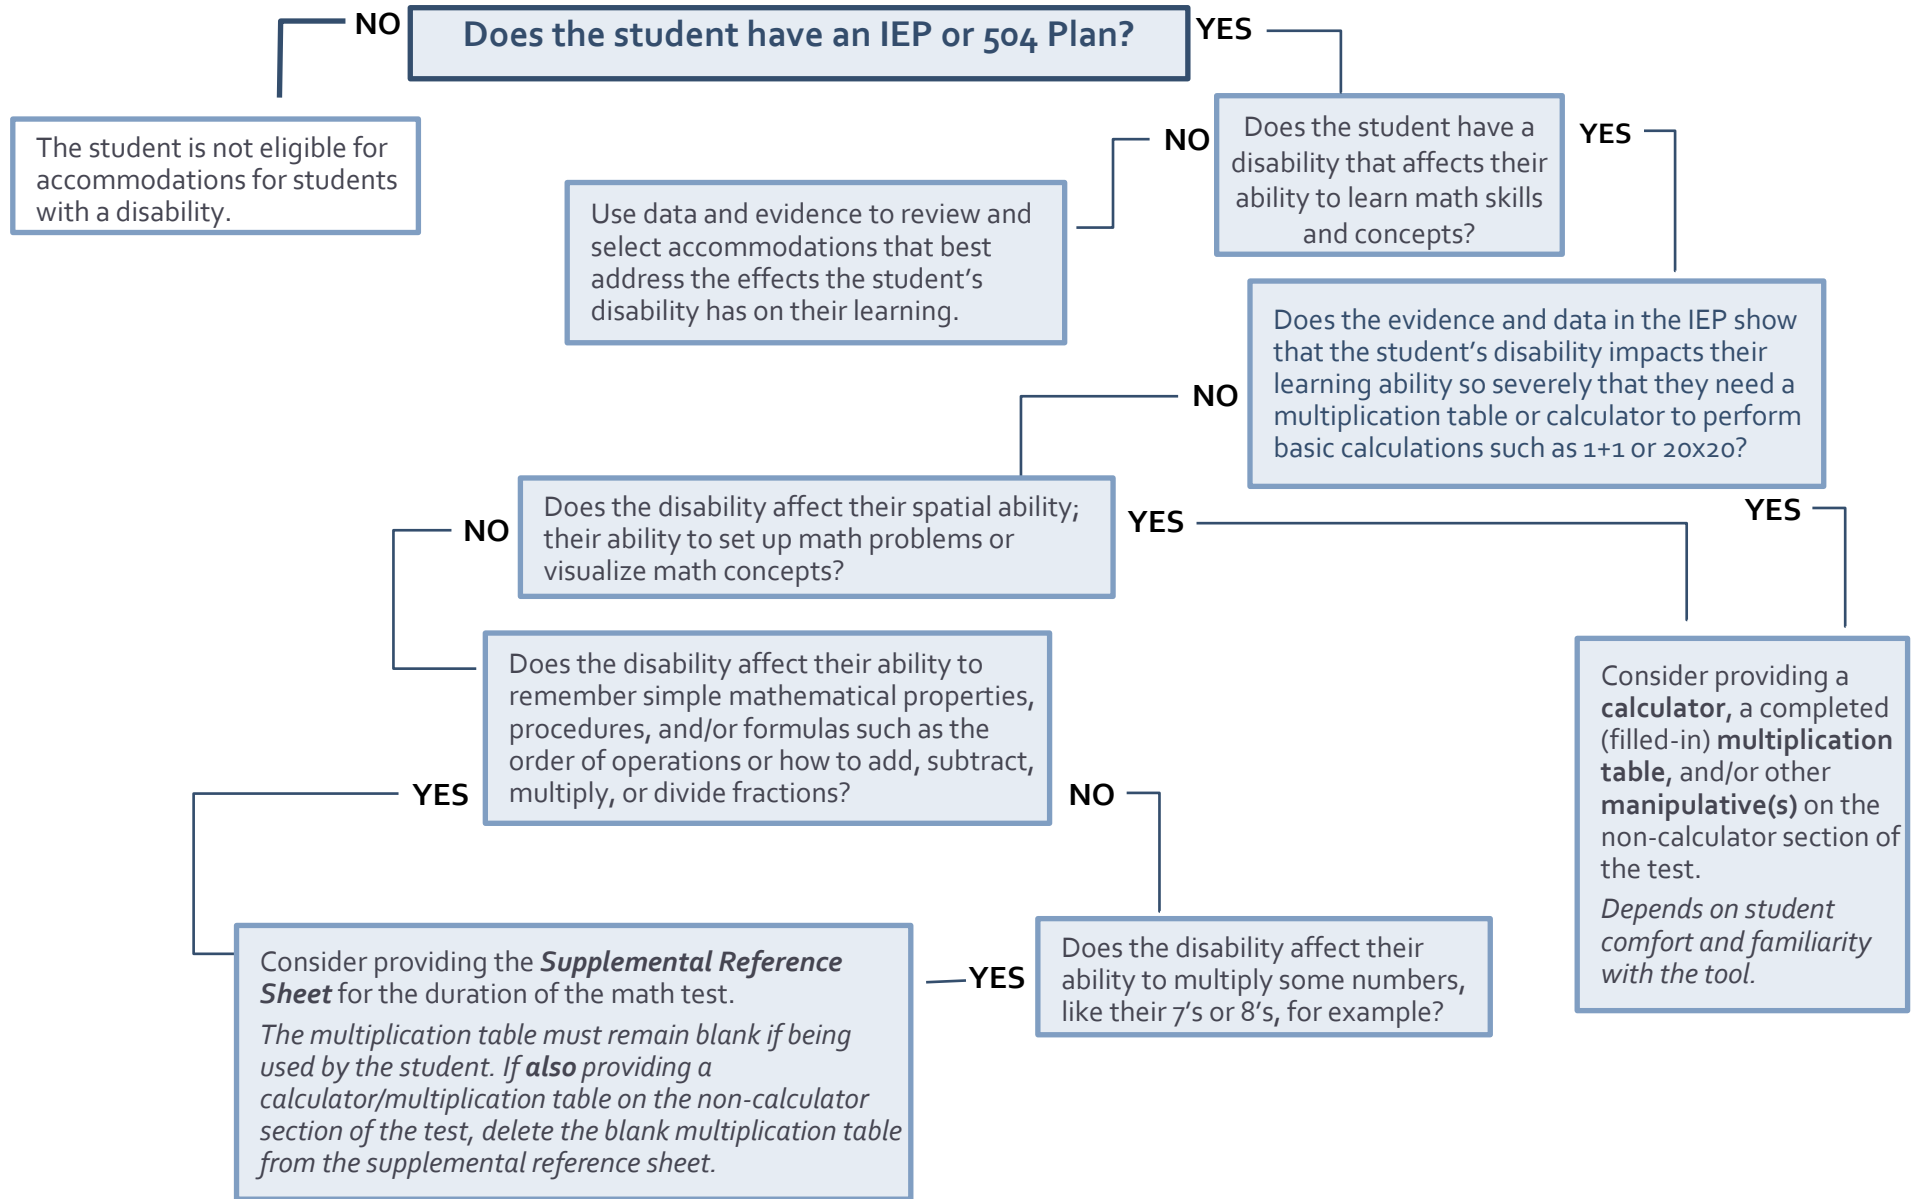

Procedures for Administering Simplified Test Directions:

- The test administrator must familiarize themselves with the testing environment and format before testing.
- The test administrator must be familiar with the student’s needs, including any additional test supports, materials, or assistive technology the student may require.
- The test administrator may only simplify the script within the SAY boxes in the Test Administration Manual (TAM). **Test items, stimulus material or passages, individual words from items, or instructions for individual items may NOT be simplified or paraphrased.**
- The test administrator must be familiar with the vocabulary used in the directions.
- The test administrator must speak clearly and at a normal pace with clear pronunciation.
- The test administrator may break directions into parts or segments or use similar words or phrases.
- The test administrator may paraphrase, clarify, or simplify test directions.
- The test administrator may spell any words in the script if requested by the student.
- The test administrator may adjust their reading speed and volume as requested by the student.
- The test administrator may not prompt the student in any way that could affect their response to a test item.
- The test administrator may only read the test items aloud if the student is receiving that test support. If so, test administrators must also adhere to the *NGSА Guidelines for Read Aloud*.

NGSA: Examples of Simplified Test Directions

Full Log-in Directions	Simplified Log-in Directions
<p>Now we are ready to log in. Once you have logged in, you will have to wait for me to approve the test before you start. I'll be checking that you have correctly entered the test session ID and other information.</p> <p>Enter your legal first name, not your nickname, followed by your SASID or SSID number. Then enter the test session ID. Raise your hand if you need help typing this information on your keyboard.</p>	<p>Now we are ready to log in. Enter your legal first name, not your nickname, followed by your SASID or SSID number. Then enter the test session ID.</p>
<p>Now click "Sign In." Once you have successfully logged in, you will see a screen with your first name and other information about you. If all of the information on your screen is correct, select YES to continue. If any of the information is incorrect, please raise your hand and show me what is incorrect.</p>	<p>Now click "Sign In." Make sure that your personal information on the next screen is correct and click YES to continue. If it is not correct, raise your hand.</p>
<p>On the next screen, select the [INSERT NAME OF TEST]. After you have selected your test, you will see a screen with a moving bar and message saying that you are waiting for Test Administrator approval.</p> <p>Please wait quietly while I verify each of your tests.</p>	<p>On the next screen, select the [INSERT NAME OF TEST]. Then wait.</p>
<p>After I approve you to begin testing, you will see a screen asking you to check your test content area and settings. If all the information is correct, you may select YES, START MY TEST. If any of it is incorrect, please raise your hand.</p> <p>Before your test appears, you will see a tutorial page listing the test tools and buttons that you may use during the test or that will appear on the test. Please read this carefully. You can also find this information during your test by clicking the HELP button in the top right corner.</p>	<p>After I approve you to begin testing, make sure that you have the right test and settings. If any of the test information is incorrect, please raise your hand. If the information is correct, click YES, START MY TEST.</p>
<p>When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.</p>	<p>When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.</p>
