

Part I

RICAS Test Security Requirements

RICAS Test Security Requirements

The purpose of the Rhode Island Comprehensive Assessment System (RICAS) is to elicit valid results showing what students know and can do in the tested subjects. The purpose of the RICAS Test Security Requirements is to protect the validity of RICAS results.

Section A describes responsibilities of principals and test coordinators.

Section B describes shared responsibilities of all individuals who have access to secure test materials.

Section C describes responsibilities of test administrators.

Section D provides instructions for reporting testing irregularities.

Principals and school staff members authorized to have access to secure materials and test content must follow the requirements listed below and may not participate in, direct, assist in, encourage, or fail to report any testing irregularity or act of misconduct.

Principals are responsible for ensuring that all test administrators and school staff members authorized to have access to secure test materials are trained in and comply with the requirements and instructions contained in this part of the *Test Coordinator’s Manual (TCM)* and in the *Test Administrator’s Manuals (TAMs)*.

Please note the following definitions for the purposes of this section and this manual:

- **“Secure”** content and materials include the following:
 - › test questions not publicly released
 - › any onscreen test content (e.g., ELA passages)
 - › student responses to test questions
 - › student logins
 - › used scratch paper

The following secure testing materials must be tracked using internal tracking forms:

- › student logins
- › used scratch paper (scratch paper must be accounted for on tracking forms but individual sheets do not need to be counted)
- **“Access”** refers to handling secure testing materials, but does not include viewing test content, which is prohibited (except when administering certain accommodations; see the *Accommodations and Accessibility Features Manual* at www.ride.ri.gov/Accommodations). Students may never transport secure testing materials, including from their initial testing room to a test completion room.

Note: Student testing devices are not considered secure unless they are actively signed in to the RICAS Student Kiosk. Students may transport testing devices as long as the devices are signed out of the RICAS Student Kiosk.
- **“Locked storage area”** refers to the central locked area that must be used to store all secure RICAS testing materials when they are not in use. Principals must restrict access to the locked storage area to only those school staff members authorized by the principal to handle secure materials. For example, custodial or cleaning staff may not enter or access the locked area where the principal stores secure materials.

Each principal must complete the Principal’s Certification of Proper Test Administration (PCPA) to certify that the school has followed proper RICAS test security requirements and test administration protocols. See Appendix A for the certification statements to which the principal must attest.

A Responsibilities of the Principal and Test Coordinator

- 1. Authorize specific staff members to serve as test administrators, and train them to properly administer RICAS tests. Designate other school staff members as necessary to maintain a secure test administration (e.g., staff members permitted to access secure test materials, staff members to serve as hallway or restroom monitors, technology coordinators) and train them in RICAS security requirements.**
 - Before the training session, distribute
 - › a copy of the appropriate TAM to every test administrator, and
 - › a copy of the test security requirements to all school staff members who have access to secure materials (available at ride.ri.gov/assessment-manuals).
 - Document that all test administrators have received TAMs and that school staff members who have access to secure materials have received the test security requirements (see sample form in Appendix A).
 - Train test administrators prior to test administration. The TCM and TAMs describe the protocols necessary to conduct a proper RICAS test administration.
 - For test administrators who provide accommodations to students with disabilities, or multilingual learners (MLLs), provide training in the administration of accommodations in accordance with the *Accommodations and Accessibility Features Manual* (available at www.ride.ri.gov/Accommodations).
- 2. Instruct students in RICAS test security requirements (see Part II).**
- 3. Develop local policies and procedures to ensure proper test security at all times.**
 - Schedule tests to avoid conflicts with recess or lunch (see Part II for more information about scheduling classes).
 - Ensure that tests are administered during the prescribed window and in the prescribed order.
 - Ensure that hallways are properly monitored during testing so that students are supervised at all times when they leave testing rooms (e.g., to use the restroom or transition to a test completion room).
 - Ensure that test administrators administer tests according to section C.
- 4. Keep RICAS test materials in locked central storage when RICAS tests are not being administered.**
 - Account for all secure test materials at the end of each test session and keep them in the locked storage area when not in use.
 - Restrict access to the locked storage area to only those school staff members authorized to have access to secure materials.
- 5. Monitor printing, distribution, and collection of materials.**
 - Student logins must be printed, securely distributed before testing, and collected after testing.
 - Used scratch paper must be accounted for and tracked during testing.
- 6. Destroy secure materials after testing.**
 - Student logins and used scratch paper (i.e., written on by students) must be securely destroyed (e.g., shredded) following testing.
 - Used scratch paper must be stored securely until it is shredded. It may not be viewed by school staff members.

RICAS Test Security Requirements

B Shared Responsibilities of Test Coordinators, Test Administrators, Technology Staff, and Other School Staff Members Authorized to Have Access to Secure Materials

1. Receive training in test security requirements and test administration protocols.

- Test coordinators are expected to participate in one of RIDE’s training sessions on RICAS test security and test administration protocols. Session information will be posted at ride.ri.gov/instruction-assessment/assessment/assessment-manuals-materials.
- Test administrators, test coordinators, and other school staff members authorized to have access to secure test materials must attend a school training session. Appendix A contains a sample form that test coordinators may use to document participation.

2. Document the location of secure materials at all times.

- Track secure materials using the sample Test Materials Internal Tracking Form in Appendix A or a similar document (test coordinators keep these forms on file for three years). See Part II, section E, for more information about requirements for internal tracking forms.
- The principal or test coordinator and each test administrator must independently count student logins and sign the tracking form before transferring custody of the logins.
- Do not leave student logins or other secure RICAS materials unattended at any time unless they are locked in the secure storage area.
- Testing materials should be returned to the principal or test coordinator immediately following the end of the test session.

3. Ensure the security of the testing location.

- Do not allow unauthorized persons to enter the testing room. This includes parents, researchers, reporters, students not scheduled to be testing at the time, and any school staff members not assigned to the room as test administrators.
- School administrators, district staff, and RIDE observers may enter testing rooms to monitor and observe testing procedures.
- Technology staff may enter testing rooms to troubleshoot problems with computer-based testing, but are not permitted to photograph or otherwise duplicate secure test content onscreen.

4. Ensure the security of test questions, test booklets, and other secure materials.

- Do not discuss or in any way reveal the contents of test questions or student responses to questions before, during, or after test administration, except as noted in this manual (see TAMs for exceptions). Because RICAS test questions are secure and confidential until released publicly, school staff members should not discuss or review test questions with students or adults even after testing has been completed.
- Do not duplicate any secure test content, including but not limited to audiotaping, videotaping, photographing, typing, or copying by hand.³
- Do not allow any portion of test booklets or answer booklets to be retained, discarded, recycled, removed, or destroyed.

³ The only exceptions are for test administrators who must transcribe student responses into answer booklets for students with disabilities receiving certain accommodations or for students who did some or all of their work in damaged, defective, or void booklets, in accordance with the steps noted in Appendix C.

- Do not remove testing materials from the school.
- Do not allow scratch paper to be retained, discarded, or otherwise removed by students.
- Be sure that student logins and used scratch paper have been securely destroyed after testing (this step is done by the principal or test coordinator).
- Do not allow students access to secure test questions prior to testing.
- Do not read or view any secure test content or student responses (except when administering certain accommodations).
- Do not change any student responses.

C Responsibilities of Test Administrators

1. Receive training from the test coordinator in administering RICAS tests properly and securely.

- Review the TAM and all relevant test security requirements before administering test sessions.
- Attend the training session led by the test coordinator before test administration. A sample form that test coordinators may use to document participation in training and receipt of TAMs can be found in Appendix A.
- Understand and follow the protocols related to administering tests to students with disabilities, multilingual learners, and multilingual learners with disabilities, and protocols related to administering accessibility features. See the *Accommodations and Accessibility Features Manual* for more information.

2. Administer all tests according to appropriate protocols.

- Administer tests during the prescribed testing window.
- Follow the directions and read the scripts in the TAMs (and in any subsequent updates provided by RIDE) verbatim to students.
- Remove or cover any classroom displays that provide information related to the content being assessed or to test-taking strategies (see page 21).
- Provide students with all required test materials as listed in the TAMs.
- Prevent the use of prohibited materials (see Part II, section E, for lists of required, permitted, and prohibited materials). Note that results may be invalidated for students who use cell phones or other electronic devices during a test session, including after turning in their test and turning in materials, during a break, and during the transition to a test completion area.
- Return all testing materials to the secure central storage area immediately following each test session.
- A test administrator may view students' tests onscreen only for the purpose of assisting a student who is having trouble with the computer interface, or in order to administer appropriate accommodations and accessibility features. See Part II, section D, for more information about assisting students with the computer interface.
- Students must work only on the session being administered, and test administrators may not provide a session access code for a session than the one being administered.

RICAS Test Security Requirements

3. Focus full attention on the testing environment at all times.

- Monitor the testing process by circulating around the room frequently. When not circulating around the room, test administrators should maintain a clear view of the students and keep their attention focused on them.
- Ensure that students are not left unsupervised during testing, including during breaks and during transitions to test completion locations.

4. Ensure that students provide answers that are strictly their own and do not participate in any form of cheating.

- Students must not
 - › copy answers from anyone else
 - › use notes, books, extra reference sheets, or any kind of class materials
 - › talk to or communicate with other students in any way
 - › provide help or answers to any other student
 - › ask for or receive help from anyone else in answering the questions
 - › access cell phones or other electronic devices during testing (other than their testing device)
 - › access any applications other than the RICAS Student Kiosk during testing

5. Do not give students any assistance or make suggestions for responding to any test question.

- Test administrators must not coach students during testing or alter or interfere with students' responses in any way. Examples of coaching include
 - › providing answers to a student
 - › indicating that a student has answered a question incorrectly or left a question blank
 - › indicating that a student has bookmarked or skipped questions
 - › defining words or providing synonyms
 - › spelling words
 - › influencing a student's responses by offering hints, cues, gestures, facial expressions, nods, or changes in voice inflection or body language
 - › monitoring or evaluating whether students are using their scratch paper or using specific testing strategies
 - › altering, explaining, simplifying, or paraphrasing any test question, reading passage, writing prompt, or multiple-choice answer option
 - › providing any manner of assistance that could impact a student's answers, including testing strategies
 - › suggesting that a student write more on a question, check previous work, or review or reconsider a question
- At any time during a test session, a test administrator may repeat a portion of the TAM script if necessary for clarification.
- Test administrators may remind the entire class to check their work before submitting their tests (the scripts contain language instructing students to do this).
- Statements of encouragement such as "Just do your best" or "Answer it as well as you can" are permitted.

6. **Do not read, view, or change student responses.**
7. **Follow proper procedures for administering accommodations to students with disabilities, multilingual learners, and multilingual learners with disabilities.**
 - Ensure that students are only provided accommodations that are listed specifically for use during RICAS testing in an approved IEP or a 504 plan, or that were specifically chosen as accommodations for MLL students.
 - Follow guidelines on proper provision of RICAS accommodations as prescribed in the *Accommodations and Accessibility Features Manual*.

D Testing Irregularities

Testing irregularities are incidents that represent a deviation from prescribed testing procedures. Testing irregularities may include student impropriety, errors in providing accommodations, educator misconduct, or the mishandling of secure test materials.

1. School Observations

In order to ensure the security and proper administration of the RICAS program, RIDE conducts announced monitoring visits to schools to observe the procedures followed during test administration. If selected for a visit, at least two regular classrooms should be visited by RIDE staff and at least one accommodation session, if possible. Additional information about school selection and visit procedures are available in the *2024–2025 RI Test Coordinator Handbook* on the RIDE website at www.ride.ri.gov/TC.

RIDE observers will confirm that all test security requirements are being met, including the following:

- Materials are stored properly.
- Staff have been trained.
- Test administrators are administering tests appropriately.
- The testing environment is secure.

2. Mandatory Reporting of Irregularities by All Staff Members

All test irregularities must be reported by the test administrator to the school test coordinator. The school test coordinator must collect any information and documentation and inform the Local Education Agency (LEA) or district test coordinator. The LEA or district test coordinator must create a report using the Rhode Island State Assessment Test Irregularities application found on the RIDE Portal. If any school or district employee with knowledge of a test irregularity has questions about his or her reporting obligations, RIDE can be consulted.

It is recommended that parents/guardians be informed when a student-specific irregularity is reported to RIDE.

Before reporting an irregularity to RIDE, gather the following information:

- a description of the incident and the date it occurred (be sure to speak with any students and test administrators involved)
- the name(s) of the individual(s) involved in the incident
- the specific test(s) and specific session(s) affected
- copies of documents if needed (e.g., notes that were passed, unauthorized reference materials)

RICAS Test Security Requirements

- any accommodations used by the students
- in student-specific reports: the student’s name, date of birth, grade, and State-Assigned Student Identifier (SASID)

Review the *RISAP TC Handbook* posted at www.ride.ri.gov/TC for additional information.
