English Language Arts - Spring 2026

This report provides your child's results from the 2026 Rhode Island Comprehensive Assessment System (RICAS) tests in English Language Arts (reading and writing) and mathematics.

Information from the RICAS, in combination with other academic and social measures, will help educators assess grade level placement, design specialized instruction, set learning goals, and monitor progress. These tests will allow schools, districts, and RIDE to identify where we need to take action to improve teaching and learning. Every student deserves an equal chance to demonstrate what they understand, and RIDE extends its gratitude to our school staff and students who administer and show what they know during the RICAS tests each year.

We thank you for your participation in these tests which help guide critical work to improve outcomes for students. We hope understanding your child's comprehension of ELA and mathematics knowledge and skills will empower you as you advocate for your child. You know your child best. For more information on how to understand the results, visit <http://www.RIDE.ri.gov/Assessment-Results>.
