

## Wellness in Education Leads to Learning (WELL) Application Overview

Every child deserves to attend a 21st century learning environment that not only supports a comprehensive educational curriculum, but also supports the social, emotional and mental health needs of the students. Many Rhode Island districts lack the resources to fully support these needs. Consistent with State Priorities, RIDE's Strategic Plan, and Rhode Island General Law, **the Rhode Island Department of Education created a new initiative in FY 2023 to support LEAs' wellness initiatives for both staff and students.**

The WELL initiative will allow LEAs to select from several pre-approved products to facilitate the development of wellness rooms and/or build capacity in existing spaces. RIDE will purchase furniture and furnishings to be delivered to LEAs to seed or enhance wellness rooms. An LEA with up to 4,000 students would be eligible for \$100,000, with larger LEAs eligible for \$150,000. RIDE will provide a simple application with a pre-curated list of items to purchase. Approvals would be given on a first-come, first-served basis. ESSER funds will be matched by OSCAS opioid settlement funding and SBA Capital Fund funding to provide \$3 million in total for this initiative.

# Wellness in Education Leads to Learning (WELL) Application Overview

## Application Overview

- The School Building Authority has \$3,000,000 available for this new program.
- Awards of up to \$100,000 will be granted to LEAs on a first come, first served basis. LEAs with more than 4,000 students are eligible for up to \$150,000.
- LEAs will be provided with \$5,000 to conduct professional development to support the award.
- To apply, please complete the application order form by **4:00pm on Friday, May 26, 2023**.
- On the form, be sure to indicate the quantities requested. Items that exceed order limits will not be included.
- Professional learning must be completed by **September 8th** to meet funding obligations. PL funds can support staff time, contracted support, and PL materials.
