Resource Center

Updated and Improved

2.0

The Resource Center on the RIDE Portal has been updated and improved to help you correct discrepancies more quickly.

Time saver: If you've only got a minute and want to see how this works, check out the [screenshots and steps here](#)**.**

Let's get started!

[Log into the portal](#) and click on the Resource Center, then select the LEA Dashboard from the drop-down menu. This will bring you to the landing page.

**RIDE RESOURCE CENTER**
DASHBOARDS

From here, click on the Data Quality Dashboard arrow

Data Quality Dashboard

This dashboard is live and provides information on the quality of data submitted to RIDE by your district.

New layout

The banner features the RIDE brand alongside a discrepancies label. The download button resembles the previous layout option for downloading.

NEW – Drop-down menu to select the type of discrepancy found just under the RIDE Banner. This drop-down menu is dynamic and will only show the options if you have a discrepancy in that type.

Type of Discrepancy

(All) ▼

NEW- Drop-down menu to select discrepancies by schools in your district, also found under the RIDE Banner.   A school will not be listed if it does not have any discrepancies.

School Name

(All) ▼

Collection Status – number of records received for each collection

Collection Name	North Kingstown
Enrollment Data	4,103
Educator Attendance Data	6,385
Discipline Data	273
TCS Course Data	1,264
TCS Section Data	3,008
TCS Staff Data	3,133
TCS Student Data	46,912
Program Core Data	542
Student Contact Data	3,948
CTE Courses Data	46
CTE Programs Data	5
CTE Student in Program Data	456
CTE Apprenticeship Programs Data	0
CTE Recognized Credentials Earned Data	0
CTE Postsecondary Credit Data	0
Grade Earned Data	2,501
ILP Collection Data	2,079
Work Based Learning Data	88

The summary table is the same as the previous layout and lists the number of records missing or with possible errors.

Summary

Type of Discrepancy	May 29, 2025
Different Number of Classes than the Majority of the Grade	121
Missing Grade Earned Records	1,097
Missing Student Contact Record	22
Student Missing All the TCS Data	12
Student with Demographic Discrepancies	17

New – Individual Discrepancies

This is the same data you previously received weekly to File Share, along with an email notice of the fresh files.

Individual Discrepancies

District Name	School Name	SASID	LASID	Discrepancy

In this table, you'll find the school's name, student SASID, and LASID, just like in the Data Quality Dashboard. But here's the exciting part: the **NEW column reveals the discrepancies**

we once found in the file located on File Share, categorized by type! How amazing is that? This is a real time-saver!

Suggestion: With fewer email notifications from RIDE regarding possible discrepancies, you may want to set aside calendar time to review your data with this great new tool a few times per week.
