

Healthy Environments Advance Learning

NEWSLETTER

THIS WEEK'S REPORT:

This message marks the beginning of our weekly newsletters—an important platform designed to enhance communication and collaboration among members of our working group. Focused on improving the physical condition of school facilities, **HEAL aims to create a lasting impact on school infrastructure and student well-being, driving positive educational results throughout Rhode Island.** Each newsletter will provide valuable updates, share critical information, and support our collective efforts to achieve meaningful improvements for students across the state.

HEALTHY SCHOOLS NETWORK: SCHOOL INDOOR AIR ENHANCEMENTS

Celebrate National Healthy Schools Day, sponsored by Healthy Schools Network, by joining us for an informative webinar highlighting School Indoor Air Enhancements in Connecticut and Rhode Island. **Learn from the HEAL team along with collaborators from Rhode Island Energy and Brown University as they discuss ongoing initiatives aimed at improving Indoor Air Quality (IAQ) through efficient, healthy learning environments.** The webinar will feature special insights into Rhode Island's focused efforts and achievements post-COVID-19. Don't miss this opportunity to support healthier schools for our children!

Register Now: [Click the link in the email to sign up.](#)
The webinar begins on April 7th at 3 PM Eastern Time.
