Test Coordinator and Test Administrator Training Requirements

All state assessments require district and school test coordinators to receive training on how to prepare for and administer each state assessment being given in their district and school. Each assessment in the RI State Assessment Program (RISAP) has its own training options for test coordinators. Most state assessments will have an online or self-paced training modules and in-person training opportunity from which test coordinators can choose.

District and school test coordinators are also responsible for training test administrators to give the tests properly. Training requirements for test administrators are included in the back of this document.

All Tests

- Monthly Test Coordinator Webinars.** These meetings have become a staple in keeping everyone involved with preparing for state assessments up to date. These meetings are not only for test coordinators. We welcome anyone at the district or school level involved in preparing for or administering the state assessments. You can register, download presentations, and listen to recordings at www.ride.ri.gov/tc.
- State Policies and Procedures.** This training will be given twice and covers the RISAP general policies and procedures for all state assessments.
