Zearn	-	-	Yes	Math	K-8	N/A

Columns indicate whether the vendor is approved for recruiting tutors, training tutors, and/or providing instructional materials for tutoring.

RIDE is accepting applications from new vendors on a rolling basis under Solicitation #OET22000940 and will update this list as new vendors are approved.

Background

Rhode Island's tutoring strategy

In February 2021, RIDE convened a task force of educational experts, practitioners, families, students, and community members across the state to understand the impacts of COVID on student learning. This task force identified high-impact tutoring as a prioritized strategy for accelerating student learning. RIDE encourages districts to use their federal stimulus dollars to expand high-quality tutoring opportunities for students.

RIDE is prioritizing tutoring in mathematics in all grades and early literacy. However, tutoring in all grade levels and subject areas is encouraged.

To support high-quality tutoring, RIDE is providing state-level professional learning, technical assistance, coaching, and support to help support local education agency (LEA) leaders in building high-quality tutoring programs. This guide is part of RIDE's tools to support LEAs in developing their own tutoring programs.

To learn more, visit www.ride.ri.gov/tutoring. For questions, email tutoring@ride.ri.gov.

What is high-impact tutoring?

High-impact tutoring (also called "high-dosage tutoring") leads to substantial learning gains for students, provided that the program is implemented with fidelity, according to research-based best practices. In a EdResearch for Recovery brief, the Annenberg Institute at Brown University outlined the key features for high-impact tutoring:

- Well-trained, consistent tutor (can be a current or retired teacher, paraprofessional, teacher candidate, college student, or community volunteer) who builds a strong relationship with students
- High-quality instructional materials, aligned to standards and core classwork
- One-to-one or small group for individualized support (between one and three students per tutor is recommended)
- Embedded in the school day, or immediately before or after, to maximize student access
- Data-driven, utilizing aligned formative assessments, with tutors building sessions around student strengths and needs, and adjusting the approach based on data over time

When tutoring programs do not have these features, they may lead to negligible improvements in student learning. Therefore, RIDE is prioritizing tutoring programs that meet research-based best practices, such as the ones outlined above.

How to use this guide

RIDE has established a list of vetted tutor providers for use by school districts. This will help address the challenges that many LEAs have experienced in recruiting and training sufficient numbers of tutors to meet students' needs.

This guide providers more information on those vendors, including a standardized summary of key information from each approved vendor to allow LEAs to make "apples-to-apples" comparisons across vendors. Additional materials from vendors are also available in Tutoring Vendor Materials Folder.

All of the RIDE-approved vendors on this list have statewide contracts (master price agreements or MPAs) that LEAs may choose to join. The approved purchase orders for the vendors are available under MPA 606 on the RI Division of Purchases Contract Board.

LEAs manage their own tutoring programs and make their own decisions about which providers to use for which services. LEAs will fund their own tutoring programs. This guide may help LEAs select vendors and streamline the procurement process.

RIDE's process for approving providers

RIDE selected tutoring vendors through a statewide request for proposal (RFP) in January and February 2022. The RFP is Solicitation # OET22000940 on the Division of Purchases Bid Board.

Vendors interested in being added to this should go to the RFP site linked above. After initial awards are finalized, the RFP will reopen for rolling applications. Prospective new vendors should direct questions to the Division of Purchases at the solicitation link above. This guide will be updated as more providers are approved.

In the RFP, RIDE sought organizations that provided one or more of the following services:

- Tutor recruitment
- Tutor training
- High-quality instructional materials for tutoring. (This may include a curriculum-enabled tutoring platform.)

Eligible applicants for this RFP included both individual organizations as well as consortia of multiple organizations working together to deliver a wider range of tutoring services. For example, an educator preparation program could provide teacher candidates as tutors and form a consortium with a community-based nonprofit.

Requirements for vendors were as follows:

Administrative & reporting requirements (required for all providers)

- Render tutoring services with LEAs in alignment with the principles of high-impact tutoring, LEA MOUs, and LEA data sharing agreements.

- Complete required LEA partnership activities by requested deadlines, including but not limited to:
  - Providing RIDE with communications documents that give an LEA-facing overview of your organization, including content areas and grade levels served, tutor training and experience, organization history, virtual / in-person tutoring capacity, and other key details requested by RIDE in the RIDE-requested format
  - Developing an LEA MOU template document that meets RIDE requirements
  - Developing an LEA data sharing agreement template document that meets RIDE requirements
- Report key data indicators to RIDE by the requested deadlines. These indicators may include:
  - Implementation metrics, including but not limited to: number of tutors recruited, number of tutors completing training, number of students served, number of tutor sessions conducted, tutor attendance rate, tutor retention rate, and the percentage of students being tutored a minimum of 30 minutes three times per week.
  - LEA satisfaction metrics, including but not limited to: survey ratings from LEAs on reliability and quality of tutoring services, other RIDE-generated survey questions, and the decision of the LEA to renew the tutoring service or recommend the tutor provider to other LEAs
  - Student outcome metrics, including but not limited to: student growth in academic performance in the content area of focus for tutoring. This may include LEAs' interim assessments and/or pre/post tests.
- Conduct regular check-ins with RIDE to share updates and report on key indicators, at a RIDE-requested cadence
- Ensure all recruited tutors complete any additional ongoing training required by RIDE, and provide RIDE with requested evidence of training completion

Tutor recruitment requirements:

- Commit to providing a minimum of 20 tutors meeting eligibility requirements and provide RIDE with a full list of recruited tutors and aligned proof of recruitment (e.g., tutor contracts or commitment forms)
- Commit to conducting national and state background checks on tutors, such as via the bureau of criminal identification (BCI), as outlined by RIDE.

Tutoring training requirements:

- Provide documentation of the number of tutors that have received tutor training. This training should be aligned to research-backed best practices, the content area, and grade level(s) of support. Training times may range from 20 hours to 60 hours, depending on the prior experience of the tutors.

High-quality instructional materials requirements:

- High-quality curriculum materials are aligned to rigorous college- and career-ready standards. RIDE partners with EdReports, a nationally recognized, independent non-profit organization,

which provides expert reviews of instructional materials. Curriculum materials for tutoring must meet at least one of the following requirements:

- o Be green-rated by EdReports
- o Aligned to other curriculum materials that are green-rated by EdReports. (Many LEAs may want the tutoring curriculum to match the green-rated curriculum used in the core content class.)
- o Have other evidence demonstrating the curriculum's effectiveness and alignment to RI standards.

- As part of the curriculum materials, some providers may also have a curriculum-embedded tutoring platform. This is not required, but may be an appealing feature to some LEAs. (Note: if the tutoring platform collects personally-identifiable information on students, the provider may be subject to higher insurance requirements due to cybersecurity concerns.)
- For more information, visit RIDE's curriculum site.

RIDE evaluated bids based on the following criteria: staff qualifications, capacity & qualifications of the vendor, work plan, and approach/methodology.

Free virtual tutoring option: Schoolhouse.world

In addition to the tutoring provider options included in this guide, RIDE has also initiated a partnership with Schoolhouse.world, a platform for free virtual tutoring. Founded by Sal Khan, the founder of Khan Academy, Schoolhouse.world allows students to receive live help, build their skills, and pay it forward by becoming a tutor themselves. The site offers tutoring in math, SAT prep, and AP review.

RIDE and Schoolhouse.world have a statewide partnership, which allows students to pre-register for Schoolhouse.world via the All Course Network on EnrollRI.org.

Register and learn more: All Course Network on EnrollRI.org or the Schoolhouse.world website.

Profiles of Approved Vendors

Air Tutors

Services Offered	☒ Recruitment	☒ Training	☐ Instructional materials *May use Curriculum Associates (iReady) curricula for K-8 ELA & Math*
Delivery Mode	Virtual		
Grades & Subjects	K-12 Math, ELA, Other subjects		
Description	Air Tutors is a leader in the field of effective digital tutoring practices. We partner with districts and organizations to provide high impact instructional services that are based on best practices in virtual instruction and high dosage tutoring. Our team of educators is dedicated to the customization of each unique partnership, which includes differentiation of instruction based on student needs, academic area of focus, implementation strategy, and alignment of lessons to your chosen curriculum(s). We are highly selective in hiring and boast a community of tutors with an average of 10 years teaching experience with Masters/PhDs in their field of academic expertise. We provide regular feedback and reports to our partners on usage and achievement metrics to ensure that our program is achieving the intended goals and producing measurable impact. *Org type: For-profit LLC*

Sample Districts Served	Oakland Public Education Fund - Rainin (CA); A Better Chicago (IL); Skillman Foundation (MI); Innovate Public Schools (CA); Oakland Public Education Fund (CA) San Francisco Public Education Fund (CA); Anchorum St Vincent (NM); Dallas Independent School District (TX); Lena Pope (TX); and others		
Costs	*Site License:* $7,500/year - Per student costs depends on number of students: *For <5,000 students:* $48/student *For >5,000 students:* $40/student - For every % above 50% for a school or district's Free and Reduced Price Lunch Eligibility, LEAs receive a 1% discount on license costs. (For example, a district with a 70% FRPL, would receive a 20% discount on licenses) *Basic PD:* $1,500 (60 min. Teacher/Paraprofessional Launch Training Session with a max of 25 attendees, Dedicated Impact Manager). *Comprehensive PD:* $3,000 (60 min. Teacher/Paraprofessional Launch Training Session with a max of 25 attendees, 60 min. Strengthening Training Session with a max of 25 attendees, Dedicated Impact Manager). *Add Ons:* 1 Additional 60 min Training Session with a max of 25 attendees: $1,000, 1hr Data Review for each school - $500/review.		

Center for the Collaborative Classroom

Services Offered	☐ Recruitment	☐ Training	☒ Instructional materials *SIPPS intervention program*
Delivery Mode	N/A		
Grades & Subjects	K-12 ELA		
Description	As a non-profit organization, Center for the Collaborative Classroom's mission is to help students grow as readers, writers, and thinkers while they develop the social and emotional skills necessary to thrive. To do so, the organization publishes curricula and provides implementation support via innovative professional learning offerings. Over its 41-year history, the organization has partnered with some of the largest school districts in the United States to fulfill its mission. Developed by Dr. John Shefelbine, the *SIPPS* program supports decoding development across three phases—the simple alphabetic phase, the spelling-pattern phase, and the polysyllabic/morphemic element phase. Lessons are built upon systematic, explicit multisensory routines that also include daily opportunities for students to apply the skills learned in isolation to Reading controlled text. The program has built in support for reteaching and intensifying instruction when needed. *Org type:* Non-profit

Littera Education

Services Offered	☒ Recruitment	☒ Training	☐ Instructional materials
Delivery Mode	Virtual		
Grades & Subjects	K-8 ELA		
Description	Littera Education is focused on enabling K-12 school districts to provide high-impact 1:1 and small-group tutoring for every student who needs it. For that reason, we created the first platform of its kind that significantly decreases the operational load associated with delivering high-impact tutoring and provides key stakeholders with the visibility they need to monitor program execution in real time. Because the Littera platform automates much of the manual work associated with session scheduling, tutor assignments, tutor/student matching, attendance tracking, and gathering student and tutor feedback, leaders can focus on creating and supervising tutoring programs at a high level. Littera offers tutor recruitment, tutor training, and high-quality, standards-aligned tutoring curriculum for ELA for grades K-8. We have a diverse team of experienced and highly qualified virtual tutors, including certified teachers, teachers-in-training, and other literacy subject matter experts. *Org type:* For-profit		
Website	https://www.litteraeducation.com/		
Contact	rfp@litteraeducation.com		
Sample Districts Served	West Aurora SD (IL); Hudsonville Public Schools (MI); Lexington SD1 (SC); Monterey Peninsula USD (CA); West Contra Costa USD (CA)		
Costs	• *Implementation fee (one-time):* $2,000 per district • *Student platform license:* $25 per student per year • *ELA curriculum license:* $30 per student per year • *Tutoring session cost:* $20 per session		

Proximity Learning

Services Offered	☒ Recruitment	☒ Training	☐ Instructional materials
Delivery Mode	Virtual		
Grades & Subjects	K-12 ELA, Math, Other		
Description	Proximity Learning, Inc. (PLI) was founded in 2008 in response to a nationwide shortage of qualified teachers. Our vision is to change the way individuals think about online education and connect educational institutions across the nation with the teachers they need, ensuring all students have access to the educational opportunities they deserve. PLI was created on the belief all students deserve educational equity through access to the best teachers in the country—no matter what. *Org type:* For-profit		
Website	https://www.proxlearn.com/		
Contact	sales@proxlearn.com		
Sample Districts Served	Chicago Public School (IL); Milwaukee Public Schools (WI) Lancaster County Public School (VA); DeSoto ISD (TX); Fulton County Schools (GA); and 300+ others		
Costs	• Option 1: Set day & time sessions (Certified K-12 Teacher)		

- Option 1: Set day & time sessions (Certified K-12 Teacher)

# of live 60 Min Sessions per Week	Monthly Cost Per Section	Number of Students
1 Session Weekly	$435.00	Up to 30
2 Sessions Weekly	$881.50	Up to 30
3 Sessions Weekly	$1,007.40	Up to 30
4 Sessions Weekly	$1,133.40	Up to 30
5 Sessions Weekly	$1,259.30	Up to 30

- Option 2: 24/7 On-Demand Tutoring

Tutoring: Certified K-12 Teacher	Tutoring: College Student/Graduate	Time	Number of Students in Pod
$50	$30	Hour	Up to 3 Students

- Option 3: 24/7 On-Demand Chat Tutoring Support

# of Students	Price per Student
1-500	$100
501-1000	$95

- Annual increases of 2.5% for cost-of-living increase will be added each year.
- Can add unique 1-800 number for phone support ($15-85K, depending on number of students)

To request a detailed tutoring proposal, email tutoring@ride.ri.gov.

Saga Innovations

Services Offered	☐ Recruitment	☒ Training	☒ Instructional materials
Delivery Mode	Virtual		
Grades & Subjects	6-12 Math		
Description	Founded in 2014 to address the systemic inequity that plagues and informs the American education system, Saga spearheaded an education intervention that addresses student opportunity gaps and academic needs, serving priority populations of low-income students (disproportionately Black and Latinx) to provide an effective math support program. Saga pioneers an intervention that employs personalized, high-dosage math tutoring during the school day, addressing challenges of heterogeneous teaching in overcrowded classrooms, to remediate student skill gaps and accelerate learning for academic success *Org type:* Non-profit		
Website	https://www.sagaeducation.org/		
Contact	Maryellen Leneghan, Vice President for District Partnerships: mleneghan@sagaeducation.org		
Sample Districts Served	Providence Public School District (RI); Chicago Public Schools (IL); New Mexico Public Ed. Dept. (NM); Pittsburgh Public Schools (PA)		

Costs	• *District planning, scheduling, logistics:* $2,500 per district *(one-time fee)*
	    o *High Quality Instructional Materials (HQIM):* $100 per tutor (2 asynchronous sessions + 2 hours of synchronous = 4 sessions)
	    o *Tutor training without HQIM:* $250 per tutor. (Saga Coach + 6 synchronous sessions = 24 sessions)
	    o *Tutor training with HQIM:* $300 per tutor. (Adds in 2 extra asynchronous sessions + 2 hours synchronous = 28 sessions)

Zearn

Services Offered	☐ Recruitment	☐ Training	☒ Instructional materials
Delivery Mode	N/A		
Grades & Subjects	K-8 Math		
Description	Zearn Math offers high-quality instructional materials for K-8 math tutoring that accelerate math learning through a mix of immersive digital learning and hands-on problem solving. During a tutoring session with Zearn Math, students engage independently with interactive digital lessons that include just-in-time adaptive support, as well as with their tutor in discussion-based problem solving or concept exploration. Zearn offers multiple reports to keep tutors, teachers and admin informed of student progress. Zearn Math's instructional materials are green-rated across all review gateways by EdReports, are aligned to RI Common Core State Standards for Mathematics, and proven effective. Studies of Zearn's impact on student learning show consistent Zearn usage results in 2x learning gains—across all levels of student proficiency. There are over 7M students using Zearn across the country this year, including over 30k students in over 200 schools in Rhode Island. *Org type:* Non-profit
